6.

Some: c Todds daughter is disabled. It is necessary to install a handicap ramp on the front of the home. The rear door has a step up into the home and is unusable. Community care is the funding agency for this project. Due to cost and time an aluminum outdoor system makes the most sense. In the email I have attached a proposed drawing. The ramp will have (a) 5' x 5' platforms and 46' of ramping.

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached via email.
