Subject: Bronzeville Overlay

I am writing to express my support for the interim Bronzeville Overlay that will require new businesses to be approved by BOZA while the study is being conducted.

I am a resident and home owner in Bronzeville - I reside on Vel Phillips. I own a commercial property on W Garfield and 2 additional properties in the area.

We are seeing what we would consider undesirable development in our neighborhood and look to protect what we are building which is a community that thrives. With a special focus on the Bronzeville commercial corridors which are critical to the growth and success we as residents are so desperately trying to achieve - everything that happens in these areas matters. It all has an impact. .To ignore those who live and invest in this area would be a great misfortune.

The interim overlay is so critical to our success.Please consider my letter of support as you all discuss the possibility of the overlay in today's hearing.

I'm open for a call if there are more questions.
