Firearm Violence in MKE

Working towards the reduction of violence through innovative interagency collaboration

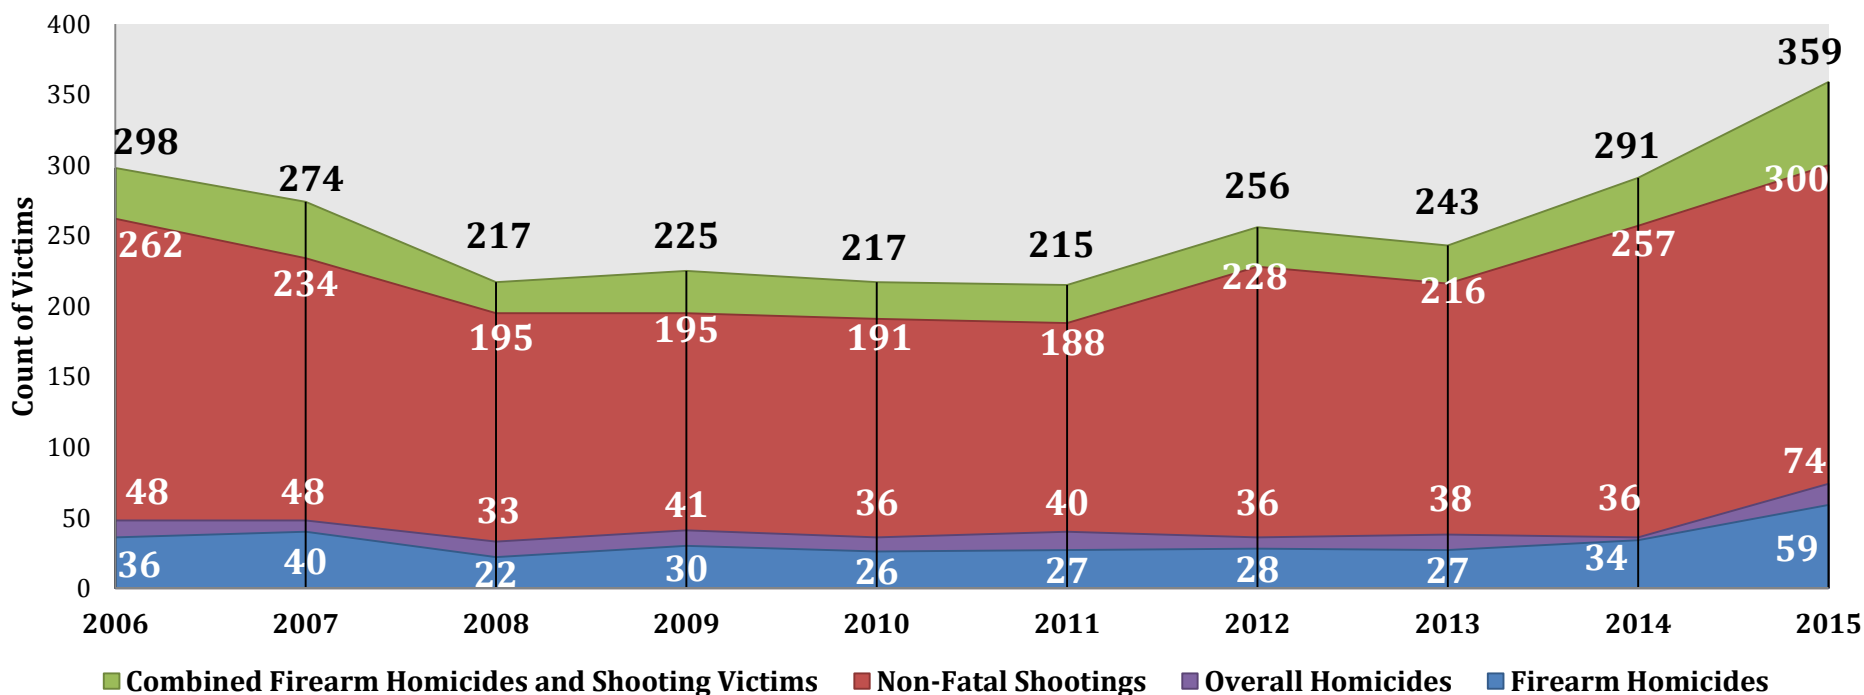

Combined Firearm Homicide and Non-Fatal Shooting Victims by Year

Firearm Violence in MKE

Working towards the reduction of violence through innovative interagency collaboration

**Combined Firearm Homicide and Shooting Victims
by Year through 2nd Quarter (1/1 - 6/30)**

2015 Homicides YTD – 87

2014 Homicides YTD – 43

2015 Shootings YTD – 296

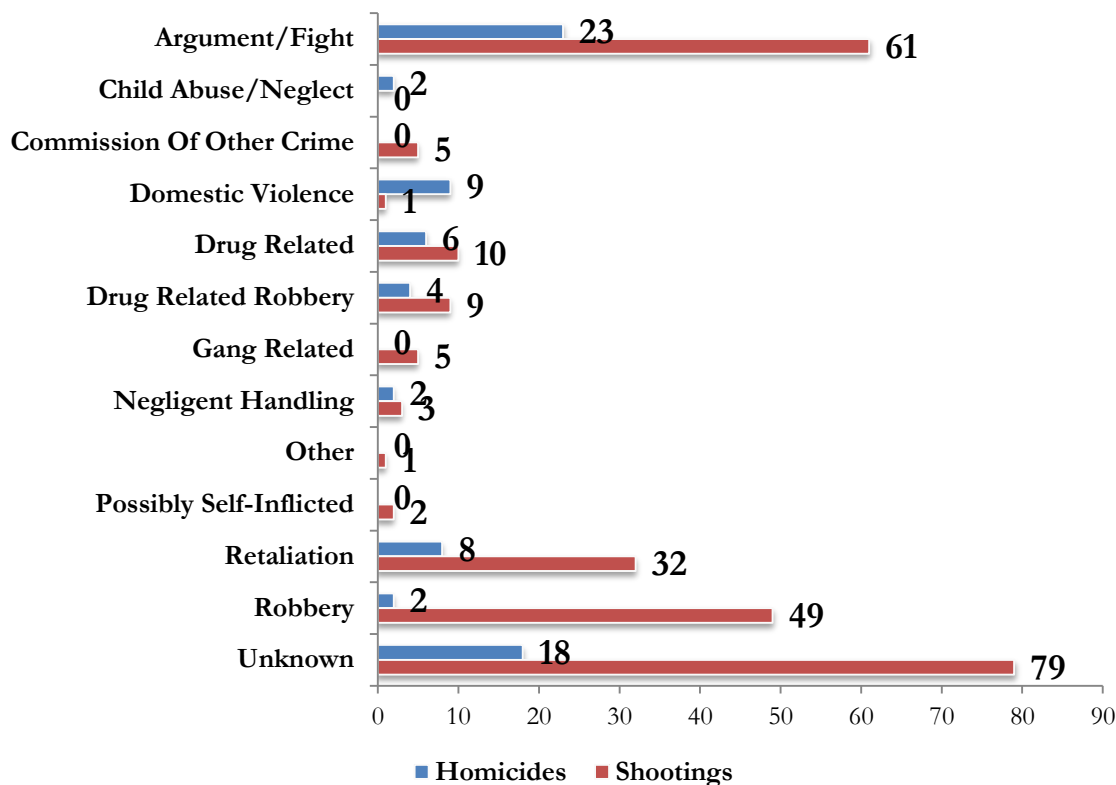

2014 Shootings YTD – 249

Contributing Factors

1/1/2015 – 6/30/15

Working towards the reduction of violence through innovative interagency collaboration

Homicides and Shootings by Primary Factor (1/1/15-6/30/15)

Drug Nexus compared to 2014:

- 23% (58), + 123%
- 22% (16), - 11%

Argument/fight Detail:

- Argument/fight **homicides** are up 360% (5 to 23)
- Top reasons include: **Respect (8)**, **Unknown (4)**, **Jealousy (2)**
- Argument/fight **shootings** are up 9% (55 to 60)
- Top reasons include: **Respect (12)**, **Jealousy (10)**, **Unknown (9)**
(*Road Rage accounts for 5)

Contributing Factors

1/1/2015 – 6/30/15

Working towards the reduction of violence through innovative interagency collaboration

Juvenile Shooting Involvement:

- 10% (31) of shooting victims were juveniles (decrease of 14% (36) from 2014)
- 4% (4) of the shooting suspects were juveniles (decrease of 33% (6) from 2014)

Juvenile Homicide Involvement:

- 7% (5) homicide victims were juveniles (increase of 25% (4) from 2014)
- 8% (4) of the homicide suspects were juveniles compared to 0 juvenile suspects from 2014

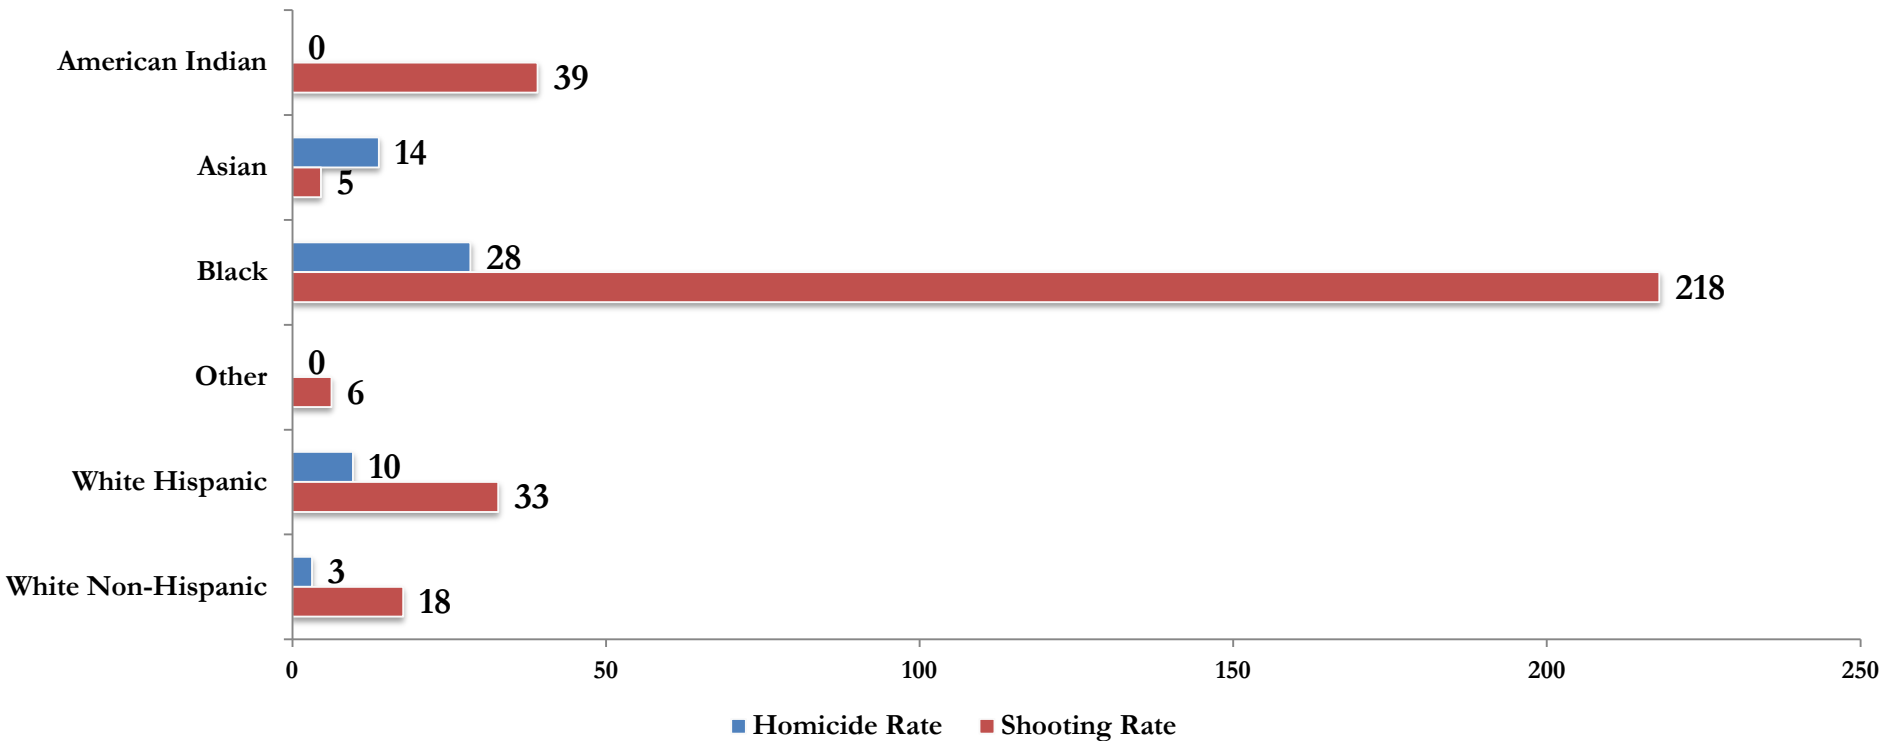

Location:

- Increases of homicides in 53216 (+1200%, 1 to 13), 53210 (+700%, 1 to 8) and 53218 (+400%, 2 to 10)
- Shootings increased in 53225 (+267%, 3 to 11), 53216 (+129%, 17 to 39) and 53212 (+64% 14 to 23)
- Shootings in 53218 decreased 29% (24 to 17)

2014 Violence Rates

Working towards the reduction of violence through innovative interagency collaboration

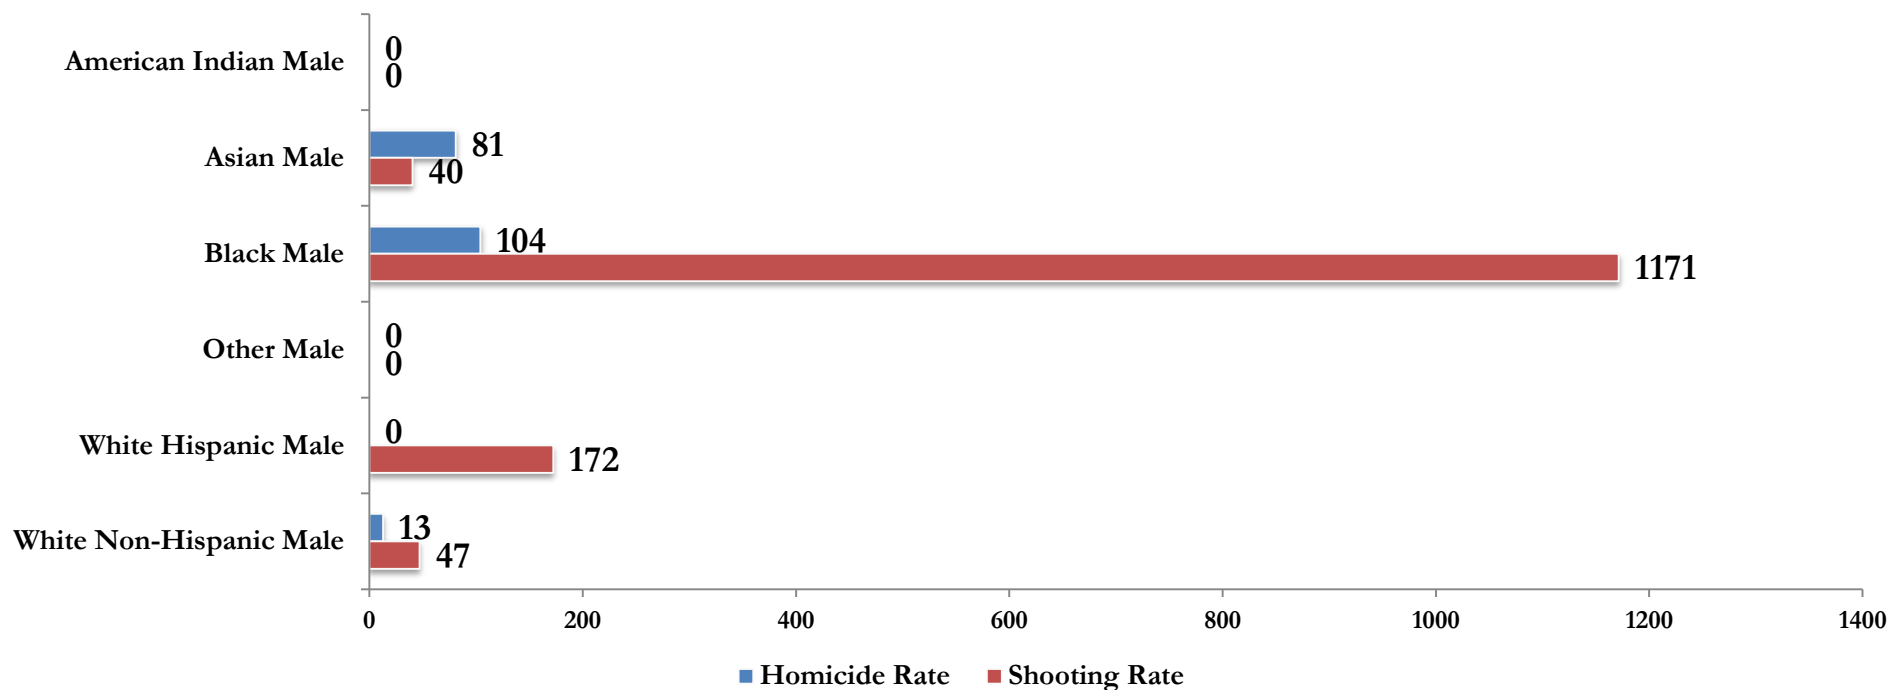

2014 Violence Rates per 100,000 Inhabitants by Race/Ethnicity

Violence Rates for 15-24 YOA Males

Working towards the reduction of violence through innovative interagency collaboration

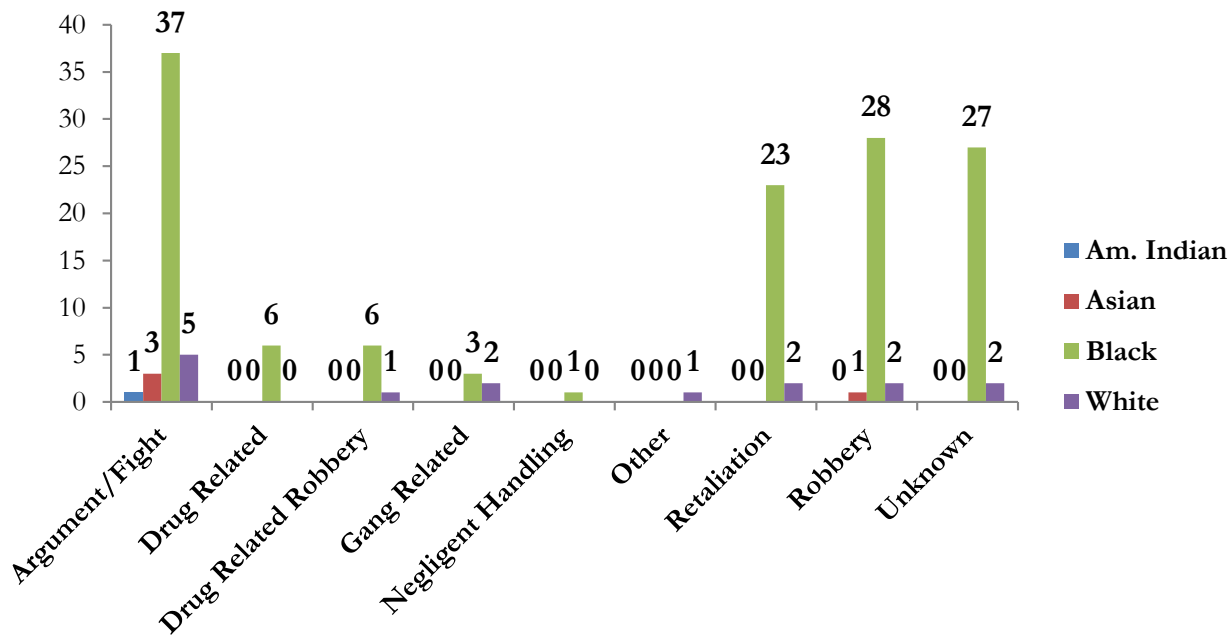

2014 Violence Rates per 100,000 Inhabitants for Age 15-24 Males by Race/Ethnicity in Milwaukee

Multiple Offender Analysis

Working towards the reduction of violence through innovative interagency collaboration

**Primary Factor of Multiple Offender Incidents by
Race/Ethnicity of Victim**
1/1/15-6/30/15

Multiple Offender Incidents:

- +200% (36 to 108) shootings
- +47% (15 to 22) homicides

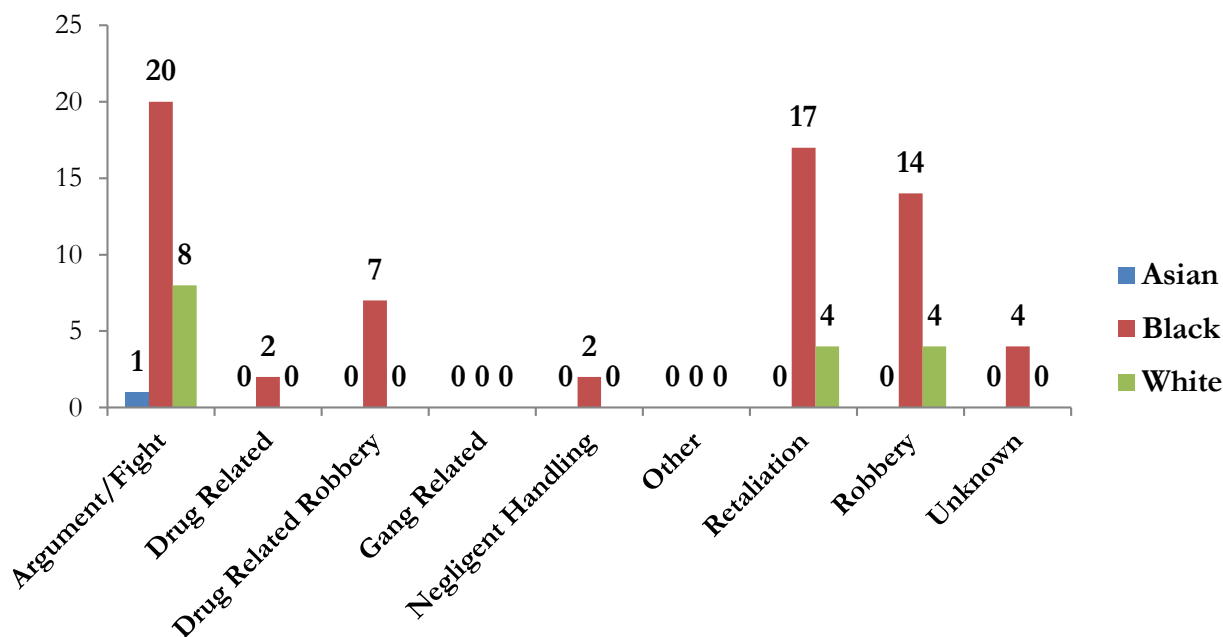

Median Age of Victim: 24

- Over 85% of the victims are Black Males
- Over 71% of victims have criminal histories

Multiple Offender Analysis

Working towards the reduction of violence through innovative interagency collaboration

Primary Factor of Multiple Offender Incidents by Race/Ethnicity of Suspect
1/1/15 - 6/30/15

The top three primary factors:

- argument/fight (35%, 29),
- retaliation (25%, 21),
- robbery (22%, 18).
- +142% argument/fights
- +91% retaliation
- --33% in robbery incidents

Median Age of Victim: 23

- Over 80% of the suspects are Black Males
- Over 96% of the suspects had criminal histories

Violence Prevention Recommendations Through the Years

Working towards the reduction of violence through innovative interagency collaboration

- Witness Protection
- Law enforcement access to juvenile data
- Milwaukee Collaborative Reentry Program
- Juvenile Milwaukee Collaborative Reentry Program
- Ordinances 105-91 (license premise) and 80-11 (after-set)
- Shooting Reviews 3.0
- Juvenile Justice – Sentinel Event
- Utilizing additional social determinant data sets for Community Service Provider Reviews
- MCDVSA integration
- Youth Reviews
