| Project/Program Title: RECONSTRUCTION OF THE NORRIS PLAYFIELD  Grantor Agency: STATE OF WISCONSIN DEPARTMENT OF NATURAL RESOURCES GRANT  Grant Application Date: 71/05  Anticipated Award Date: 10/1/05  Please provide the following information:  1. Description of Grant Project/Program (Include Target Locations and Populations):  Norris Park is a 2-3-ares rise located at 936 N. 19th St., Milwankee, W., bound by Kilbourn Street to the south, 19th Street to the west, State Street to the north and 18th Street on the cast. Originally the site was the playground for the old Milwankee I flash Street and Grils "The Public High Schools. Decades ago, the school buildings were turned over to the Milwankee Rescue Mission Milwankee Public Schools (MPS) continued to maintain the playground, but with few young families left in the neighborhood, the site was not used and MPS at opped recreational programming. Surrounded by a chain-link knee. the harmen squared block orasphalt has the appearance of a prison yard. The only glimpse into the past is a few pieces of playground equipment and a ragged basketbal hoop. The site is now an eyesore and reflects the neighborhood as unsafe and distressed.  The creation of open green space will encourage local recreational and sport groups, millies and residents living within the neighborhood and local organizations, such as the Milwankee Center for Independence to enjoy the outdoors. Of the approximately 14,000 individuals living within the neighborhood almost 45% are individuals between the ages of 18 and 24 years old, confirming that the Norris neighborhood is home to many college-aged students. This indeed in the college activations are given to a propose of the pro |  | Change in Previously Approved Grant |  |                           |  |

Of the approximately 14,000 individuals living within the neighborhood, almost 45% are individuals between the ages of 18 and 24 years old, confirming that th Norris neighborhood of the provide recreational facilities to younger children north of Highland Avenue. There is no other green space or recreational area in the Norris neighborhood open to the public.  Providing the resource of appealing public green space achieves our goal of providing a safe environment for the residents and adds value to the adjacent residential properties and fature parcels. The vision for the redevelopment involves two phases. The first phase will include the removal of the existing concrete that covers the site and replacing the concrete with sod, seeding and other landscaping amenities such as the field drainage system. In addition |  |                                     |  |                           |  |
