Subject: Support Letter Template

Hi Chris here is a support email that just came from MPS.

I'd like to add it to the file – not to present but a reference to our relationship with schools, students and parents.

Thank you

Darryl davidson

Subject: City of Milwaukee Support Letter

Good afternoon,

The Department of Black and Latino Male Achievement plans to successfully collaborate with the City of Milwaukee in creating student leaders and spaces of support for preventive care for Black and Latino Males in Milwaukee. Our collaborative efforts have supported the development of various projects such as the Black Male Summit, the Mental Health Symposium, Fatherhood initiatives, and exercises that promote safety and wellness.

Moving forward in our collaborative efforts, we plan to continue to cultivate our community through ensuring programming for healthy initiatives and student leadership. We can do this through efforts of school-based workshops, community events, and cultivating student leaders.

(Let me know if this works)

Best,

Nate Deans Jr
