

November 14, 2001

To the Honorable, the Common Council

Dear Council Members:

Attached hereto is a request from the Infrastructure Services Division for a variance from procedure in Common Council Resolution File No. 881665 adopted December 20, 1988, which would allow additional appropriations to the 2001 capital budget assessable account as indicated below:

New Street Construction Project Grant Account	ST210010000-0330	\$420,000
	TOTAL	\$420,000

At the time the 2001 budget was approved, no assessable projects were anticipated. Since then, the Department of City Development has requested that for Beerline "B" riverwalk improvements adjacent to the public rights of way from East Pleasant Street to North Humboldt Avenue be assessed to the abutting property owners. The nonassessable portion will be paid by the TID.

Transmitted, herewith, in resolution form, is such a request which, if granted, would authorize the additional appropriations in the account and amount specified above.

We hereby recommend approval of the attached request.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Mariano A. Schifilacqua
Commissioner of Public Works
