Subject: Support for aquisition of 30th St rail corridor

Alderman Bauman,

I would like this email to be recorded in support of file 241777.

The potential for the 30th St rail corridor to be used for transit or bicycle infrastructure is huge.

I use the Oak Leaf Trail to get to work every day (rain, snow, or shine). Infrastructure like the Oak Leaf Trail is a lifeline for me. The ability to ride a bicycle as a mode of transportation has saved me an enormous amount of money and opened up many opportunities for me. I want more people to have access to infrastructure like this.

Thank you,
Ryan Burleson
