P&S syphilis	31	5.2	37	3.9	80	1.4	23,872	7.5
HIV	105	17.5	119	12.4	225	3.9	44,073	13.8

Data sources: Wisconsin PHIN AVR, accessed November 18, 2016; Wisconsin Department of Health Services (WI DHS), Sexually Transmitted Disease in Wisconsin 2015: Milwaukee County; WI DHS, Sexually Transmitted Disease in Wisconsin 2015: Reported Cases; WI DHS HIV/AIDS Surveillance Annual Review, 2015: Addendum: City of Milwaukee; Centers for Disease Control and Prevention (CDC) 2015 Sexually Transmitted Diseases Surveillance; CDC Diagnoses of HIV Infection in the United States and Dependent Areas, 2014; 2010 U.S. Census
 *The number of cases reported for the U.S. (which was used to calculate the U.S. HIV rate) is an estimated number created using statistical adjustment to account for reporting delays and missing transmission category.

**All rates in Table 1 are defined as number of cases per 100,000 population. Please note that different data sources may have used different population data for the denominator of the rate.
