

Perimeter

214.1 PURPOSE AND SCOPE

The purpose of this policy is to establish this facility's security perimeters, to ensure that incarcerated inmates remain inside the perimeter, and that visitor, vendor, volunteer and employee access is granted only with proper authorization and through designated safety vestibules and sallyports. The secure perimeter of this facility will provide protection from the escape of persons being processed, held or housed, and will act as a defense against the entry of unauthorized persons. It shall also be maintained to prevent contraband from entering the secure areas of the facility.

214.2 POLICY

All entry points to the secure perimeter of the facility shall be monitored and controlled continuously by Master Control staff. The entire perimeter shall be inspected, maintained, monitored and continuously assessed to ensure its physical integrity and prevent unauthorized entry, inmate escape and contraband from entering the facility.

214.2.1 VISITORS

This facility shall be maintained as a secure area and no person shall enter any portion of the inner perimeter without specific authorization from the Jail Commander or the authorized designee. All visitors shall be required to provide satisfactory identification, such as a valid driver license, valid passport or military identification. Visitors shall be entered into the visitor log and the reason for the visit should be noted. Visitors must wear a visitor's badge at all times and shall be escorted by one or more staff members at all times, while they are in the secure areas of the facility.

214.3 PROCEDURE

The secure perimeter shall be maintained by assigned staff. The Jail Commander or the authorized designee shall ensure that a staffing plan is in place to monitor the secure perimeter of the facility. Suspicious activity at or near the perimeter shall be immediately be reported to Master Control. Master Control staff shall notify the shift commander and initiate an appropriate law enforcement response.

Individuals suspected to be in violation of any law may be subject to detention or arrest. Warrant checks should be conducted on all individuals who are on the property without proper authorization. Individuals found to be loitering on or around the perimeter of the facility will be stopped and questioned to determine the circumstances of their presence. They may be denied entrance into the facility.

Master Control staff shall identify all persons seeking to gain access to the secure perimeter of the facility. Persons delivering goods or services shall identify themselves to Master Control staff prior to being allowed access to the delivery area.

Milwaukee County Sheriff's Office

Custody Manual

Perimeter

Materials delivered to or transported from the facility's secure perimeter shall be inspected for contraband or unauthorized persons. Vendors making deliveries into the secure area of the facility will do so under the supervision of corrections staff.

Keys to the secure perimeter shall be easily identifiable and issued only in emergency situations or with the authorization of the Jail Commander or Sheriff.

Weapons lockers are provided outside all secure perimeter entrances. All weapons, including firearms, magazines, OC spray, baton, electronic control device, kinetic energy weapons (e.g., beanbag shotgun), and edged weapons must be secured in a locker prior to an individual being allowed to enter the facility. No weapons may be stored in a vehicle.

Any sallyport, including Court Staging or Jail Records, and the secure garage are to be used for the transfer of inmates.

Operation of the sallyport doors will be done in such a manner as to effectively control movement into and out of the secure perimeter of this facility. Only one set of doors should be open at a time. Master Control staff are responsible for ensuring all perimeter surveillance equipment is in good working order and shall immediately report malfunctions or failures to the on-duty supervisor.

Outer perimeter security may be accomplished by using fencing or another type of barrier. These barriers should be designed to route vehicular and pedestrian traffic away from non-public areas. Outer perimeter lighting should be designed to illuminate all areas of the exterior to allow visual inspection by video monitor or perimeter patrols.
