

## Food Preparation Area

### 904.1 PURPOSE AND SCOPE

This policy is intended to ensure the proper design and maintenance of the food preparation area.

### 904.2 POLICY

It is the policy of this agency to comply with all federal, state and local laws and regulations concerning the institutional preparation of food.

### 904.3 COMPLIANCE WITH CODES

The Jail Commander is responsible for ensuring that food preparation and service areas are in compliance with all applicable laws and regulations and that food preparation areas are sanitary, well lit, ventilated and have adequate temperature-controlled storage for food supplies.

Any physical changes in the food preparation area, such as changing equipment or making major menu changes (from cold production to hot food), must be approved by the local public health entity to ensure adequate food protection.

Living or sleeping quarters are prohibited in the food preparation and food services areas.

The food preparation area must avoid cross contamination and remain free from pest infestation.

### 904.4 CONSTRUCTION REQUIREMENTS

All remodeling and new construction of food preparation areas shall comply with federal, state and local building codes, comply with food and agricultural laws and standards and include any required approvals from any local regulatory authority.

The size of the food preparation area shall be adequate for the facility's population.

Floors, floor coverings, walls, wall coverings and ceilings should be designed, constructed and installed so they are smooth, non-absorbent and attached so that they are easily cleanable.

Except in the area used only for dry storage, porous concrete blocks or bricks used for interior walls shall be finished and sealed for a smooth, non-absorbent, easily cleanable surface.

Food storage areas shall be appropriately clean, sized, typed and temperature-controlled for the food being stored.

Lighting throughout the kitchen and storage areas shall be sufficient for staff and inmates to perform necessary tasks.

Mechanical ventilation of sufficient capacity to keep rooms free of excessive heat, steam, condensation, vapors, obnoxious odors, smoke and fumes shall be provided, if necessary.

All equipment used in the food preparation area shall be commercial grade and certified by the American National Standards Institute or approved by a registered environmental health professional/sanitarian.

# Milwaukee County Sheriff's Office

## Custody Manual

### *Food Preparation Area*

---

Dishwashing machines will operate in accordance with the manufacturer recommendations and hot water temperatures will comply with federal, state and local health requirements.

Equipment must be smooth, easy to clean, and easy to disassemble for frequent cleaning. Equipment should be corrosion resistant and free of pits, crevices or sharp corners.

Dry food storage must have sufficient space to store a minimum of 15 days of supplies. All food must be stored in sealed containers and a minimum of 6 inches off the floor.

#### **904.5 TOILETS AND WASHBASINS**

A sufficient number of toilets and washbasins shall be located near the food preparation area for convenient sanitation and proper hygiene. Toilet facilities shall be completely enclosed and shall have tight-fitting, self-closing, solid doors, which shall be closed except during cleaning and maintenance.

Signs shall be conspicuously posted throughout the food preparation area and in each restroom informing all food services staff and inmate workers to wash their hands after using the restroom. Signs shall be printed in English and in other languages as may be dictated by the demographic of the inmate population.

To reduce the potential for contaminants being brought into the food preparation area, toilet facilities in the vicinity of the food preparation area should be limited to use by the food services staff and inmate workers only. Anyone working in the food services area must store their aprons in a designated clean area before entering the toilet facilities.

The food services manager shall be responsible for procedures to ensure:

- (a) All fixtures in the toilet facilities are clean and in good operating condition.
- (b) A supply of toilet tissue is maintained at each toilet at all times. Toilet facilities used by women shall have at least one covered waste receptacle.
- (c) The hand-washing station located adjacent to the toilet facility has warm water available and is kept clean and in good operating condition. Single-dispensing soap and a method for drying hands shall be provided at all times.

If the toilet facility is outside of the kitchen area, food services workers must wash their hands after using the toilet facility and again upon returning to the kitchen area before preparing or serving food.
