Dear Milwaukee Wisconsin gov I do (NOT) approve and agree with this data center being built on Wisconsin land due to the capabilities of data centers on what they are capable of causing such as the negative impacts they do to our environment, ecosystem, and economy I appreciate for it not to be built in this state this is my vote and voice and I have the right as a American citizen to vote against what causes environmental harm and also please stop supporting this useless fantasy advance knowledge known as a.i as if it's superior to the human race which is not. thank you for reading to my response of my vote on this data center project have a good day.
