Subject: ZND File #220239 // DNS Permit info

Good Morning,

As requested, DNS is providing permit information related to the construction of a retaining wall located at 2112 N Lake Dr.

An application for permit #RES-ALT-22-00389 was received by the Permit Center on 6/23/22. At that time DNS requested that the applicant provide Home Improvement Contractor License (HICL) credentials and indicated that the Dwelling Contractor renewal was in a "late renewal status" with the State of WI and did not process the permit. Additionally, on 6/23/22 a condition was added to the file by the reviewer indicating that the parcel was located in a historical district.

After this morning's hearing, the applicant provided the requested HICL information.

To date, no permit has been issued for this work. We have added an additional comment in the file indicating that a permit will not be issued until a COA is approved.

Erica R. Roberts
