If that car was mine, it would be in the shop getting looked at for the noise it makes. The driver also disclosed that based on the rain yesterday he thought water had gotten into the frame. Finally, it didn't seem like the car or driver was fit to drive at speed on the freeway.

All the best.

We can log this as an official object to the license for the taxi itself. Could you please provide some more info on what is not safe about the taxi?

I didn't see anywhere else to report that the condition of the taxi itself isn't safe which is leading to unsafe driving.
