5. DESCRIPTION OF PROJECT:

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

The General aim is to complete repairs to the gutter (wood) of the porch using matching replacement wood trim. For drainage, the downspout will run parallel to the roofline until dropping at the corner of the house front face. The deck of the porch will need to have decorative wood columns to support the roof deck and the porch will need a wraparound bannister and railings for the stairs, and a porch skirt. I also have included dimensions & data for the skylights I installed after contacting the historic commission by email & phone regarding replacing the existing severely leaking roof.
