Subject: No Data Center in our Neighborhood!

Some people who received this message don't often get email from clairekinder11@gmail.com. [Learn why this is important](#)

Good Morning,

I am a resident of the Nash Park Neighborhood and I am writing to let you know that I can confidently say we do NOT want a data center anywhere near our neighborhoods. The proposed location is an irresponsible thought that ignores the proven detriment that Data Centers cause to our people and environment. I am even more disgusted that this is being proposed to be located on the exact site the new Milwaukee Public Library Capitol Branch with a community center is being proposed.

I cannot believe that the people of this city would choose a water guzzling, pollution, greed machine over a much needed resource on the West Side of our city. The people of Sherman park need access to resources, community engagement and a caring environment.

To ignore this fact not only spits in the face of the outcry from your constituents, but is a pure act of greed. This city faces enough hardships, let's not make things worse by allowing a data center. Let's not ignore the facts. Let's not hurt the citizens of Milwaukee. Let's not ignore the benefits a library has for our community. Let's be smart, caring and compassionate.

Claire Kinder
