## MPL Daily Patron Count Averages: 2024 & 2025 (YTD)

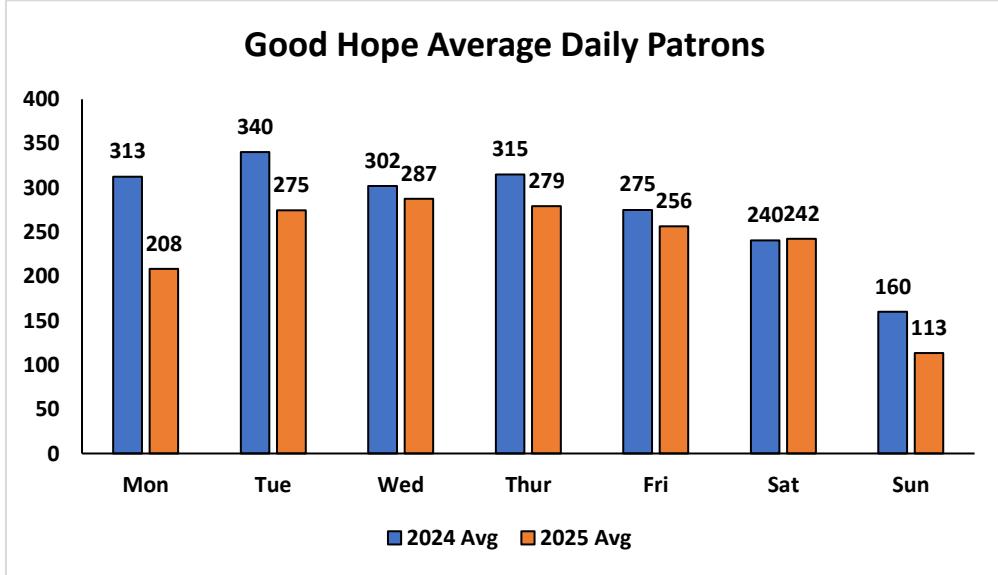

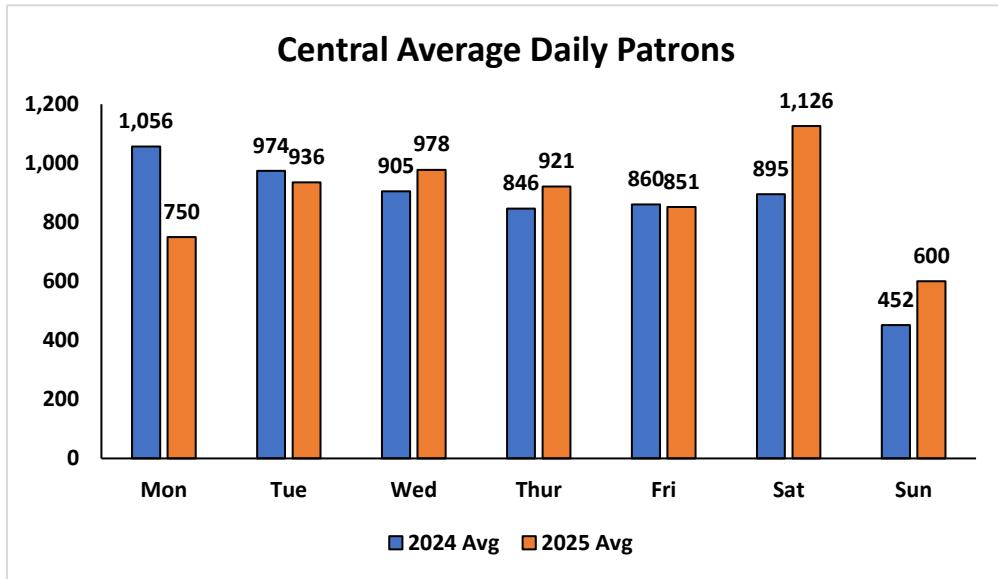

2024 & 2025 (YTD) data prioritizes years when Sunday services were provided across 3 MPL locations. The general averages across all MPL locations by day give context to open days throughout the year. Averages of MPL's three Sunday service locations give further context on usage. Additionally, hours of service by day vary. Given the myriad of variables impacting patrons' usage times, MPL cannot predict future usage of increased hours each day. The proposed budget includes a recommendation for Central Sunday hours to expand from four to seven.

Totals do not include Drive-up or Education & Outreach Services data. Historically, data is collected and reported monthly, not daily, resulting in some differences in totals as some daily data was missing and only monthly totals were available. All data has the potential for human error and may cause anomalies with other reported data.
