Members of the Judiciary/Legislative Committee

In re: The proposed redistricting of the 8th Aldermanic District

It is my feeling and the consensus of my neighbors that this proposal will not only fractionalize the neighborhood but also be detrimental to the functioning of the city.

Historically the 8th District has been an integral portion of city operations and the loss of this integrity would only lead to further disruptions of city operations.

What is historically accurate should never be politically invasive.

Sincerely

Frank L. Pokrop
