Linden Reid 2629 N Fratney St. Milwaukee, WI 53212 (775) 233-4129 lindenereid@hotmail.com

Attn: City Claims Clerk

To whom it may concern,

Between the evening of June 28<sup>th</sup> into the morning of June 29th, between the hours of 8:30 PM on June 28<sup>th</sup> when I parked my vehicle, and 1:00 AM June 29<sup>th</sup> when I returned to find my vehicle, a section of a tree belonging to the city of Milwaukee on the section of grass between the road and the sidewalk at 2118 E Kenilworth Place on the East Side of Milwaukee fell on the hood and roof of my 2020 Honda Fit EX. On July 23<sup>rd</sup>, my vehicle was determined to be a total loss per state of Wisconsin guidelines due to the extent of the damage to the vehicle during this incident and the monetary cost it would take to repair.

My vehicle was parked curbside in front of 2118 E Kenilworth Place on the East Side of Milwaukee, and the resident of the upper apartment unit of this address, as well as a resident of 2112 E Kenilworth Place informed myself and the city tree removal crew, who arrived at approximately 10:00 AM the following morning of June 29<sup>th</sup>, that they had filed a report with the city several weeks prior to have the tree branches removed as several large branches were cracked and in danger of falling. As these branches had previously been reported as in danger of falling prior to June 28<sup>th</sup>, negligence to have them removed is responsible for the total loss of my vehicle.

The branch that fell on my vehicle fell on the roof, windshield, and hood, as well as pierced the dashboard through the windshield, causing interior engine damage as well as extensive exterior damage. I have included photographs of the damage taken at the time I discovered the vehicle (approximately 1:00 AM June 29th), as well as photographs taken by the city tree removal crew at approximately 10:30 AM June 29th, when they arrived to remove the tree.

I am seeking relief in the amount of \$8,760.98, broken down as included in the following calculations. I have included proof of payments made to my bank towards the loan of this vehicle as they represent lost value of the vehicle, a calculation of the monetary amount remaining on the loan due to my bank for the vehicle loan after completion of the insurance payment, a schedule of lost income hours due to the total loss as well as a pay stub to demonstrate my wage rate, two copies of the valuation estimate of the vehicle by my State Farm Insurance, paid out in two installments, with supporting authorizations of payoff and repair estimates, a statement of total loss from State Farm Insurance, an auto loan statement from PNC bank, the final settlement letter, and the final settlement breakdown letter from State Farm Insurance.

Please inform me through either the phone number or email address above if there is further documentation I can provide to clarify any of the details of this claim.

Thank you,

Linden Reid

# VALUATION METHODOLOGY

#### How was the valuation determined?

#### **CLAIM INSPECTION**

STATE FARM INSURANCE COMPANIES has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

#### DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

#### SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

#### CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- · Similarity (such as equipment, mileage, and year)
- · Proximity to the loss vehicle's primary garage location
- · Recency of information

## **VALUATION METHODOLOGY**

## How was the valuation determined?

## **CLAIM INSPECTION**

STATE FARM INSURANCE COMPANIES has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

#### DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

## SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

## CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- · Similarity (such as equipment, mileage, and year)
- · Proximity to the loss vehicle's primary garage location
- · Recency of information

physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Average Private condition. These dollar adjustments are based upon interviews with dealerships across the United States.
