

Project Plan
For
Tax Incremental District Number 63
City of Milwaukee
(North 20th / West Brown Streets)

Prepared by
Department of City Development
December 9, 2005

In Conformance with the provisions
Of Section 66.1105, Wisconsin Statutes,
as Amended.

I. DESCRIPTION OF PROJECT

A. Introduction

Section 66.1105(4)(d), Wisconsin Statutes, requires the "preparation and adoption... of a proposed project plan for each tax incremental district." This Project Plan is submitted in fulfillment of this requirement and the related provisions of section 66.1105, Wisconsin Statutes.

B. District Boundaries

Tax Incremental District Number 63, City of Milwaukee, North 20th / West Brown Streets ("District" "the TID") is comprised of land located between West North Avenue, West Fond du Lac Avenue, North 17th Street, West Brown Street, and North 23rd/ North 24th Streets. The District is shown on Map No. 1, "Boundary and Existing Land Use," and described more precisely in Exhibit 1, "Boundary Description." A complete list of properties in the District is provided in Exhibit 2, "Property Characteristics." The District lies completely within the North 20th / West Lloyd Streets Redevelopment Plan area.

The District contains property totaling 1,598,992 square feet (36.7 acres,) exclusive of public streets and alleys. 77.7% of the real property located within the District was found to be "blighted" within the meaning of Section 66.1105 (2)(a)1. Exhibit 2 illustrates how the properties in the District meet the statutory criteria for Tax Incremental Districts.

C. Plan Objectives

The District is part of the Fond du Lac and North neighborhood. The TID will assist in the implementation of the *Fond du Lac and North neighborhood plan*¹, which includes redevelopment of the District as a "catalytic project" and a priority objective of the neighborhood. The area in and around the District declined in the 1970's when hundreds of homes (including approximately 150 structures in the District) were razed for the proposed Park West freeway, which was never built. A substantial portion of that cleared land in the District has remained vacant for over 30 years.

There is significant recent redevelopment in the area. CityHomes is a single-family subdivision located just two blocks to the south of the District at North 20th and West Walnut streets. The City of Milwaukee initiated CityHomes in 1997. The first phase of CityHomes consisted of 43 homes, and a second phase added up to 40 additional homes. CityHomes served as the catalyst for creating interest and demand for new single-family infill housing in the City, and further development followed. The area to the east of the proposed District, from 20th Street to 12th Street, is known as Lindsay Heights. Since 1997, approximately 130 new in-fill Lindsay Heights' homes have been built. A significant development within Lindsay Heights, Josey Heights, began construction in November 2005. Josey Heights will see up to 53 owner-occupied homes on a 7.3 acre parcel located at North 12th and West Brown Streets. Other notable new construction of homes in the area includes a significant concentration of Habitat for Humanity homes.

An important exception to these development efforts is the proposed District. Although limited redevelopment has taken place, much of the District remains vacant and blighted even 30+ years after the freeway clearance. It contains some of the last Park West land to be redeveloped. In its current state, the site is a detriment to ongoing redevelopment of the area.

The District will enable revitalization primarily by developing vacant City-owned land for residential redevelopment and replacing/upgrading public improvements in the District. Additional objectives of this Plan are to provide funding for: site assembly, housing rehabilitation loans or grants to owners of existing properties in the District, and for green space enhancements to Johnson's Park. The park is currently being redesigned, with expected costs of over \$2 million.

As opportunities present themselves, it is possible that there will be limited acquisition of

¹ Prepared by Planning & Design Institute and adopted by the City of Milwaukee as part of their Comprehensive Plan on March 19, 2004.

property. Properties *may* be purchased at fair market value from a willing seller in order to assemble development opportunities.

The more detailed objectives of this Project Plan are to:

1. Strengthen the economic vitality of the near north side by building residential property targeted to owner-occupants.
2. Promote coordinated redevelopment of vacant and underutilized land, including assembly of parcels.
3. Build public improvements that are not feasible without a Tax Incremental District.
4. Impose mandatory standards for property rehabilitation and development.
5. Eliminate obsolete conditions, blighting influences and environmental deficiencies that impede development and detract from the functionality, aesthetic appearance, and economic welfare of this area of the city.
6. Provide grants or low-cost loans to owners of existing property in the District in order to make required repairs to their homes.
7. Maximize the use of Emerging Business Enterprises in contracting opportunities.
8. Make contributions to the Redevelopment Authority of the City of Milwaukee (RACM) under Section 66.1333.5, Wisconsin Statutes for site and project improvements and for related activities undertaken in connection with the implementation of this Project Plan.

D. Proposed Public Action

The City of Milwaukee may, on its own initiative or through a cooperation agreement with the Redevelopment Authority and/or other entities, undertake any and all project and site improvements and activities considered necessary to achieve project objectives and the commitment of private investment. This Plan is not intended to limit and shall not be interpreted as limiting the Redevelopment Authority in the exercise of its powers under Section 66.1333(5), Wisconsin Statutes, within the District. It is possible that future amendments to this District for other investments in this area will be proposed. In general, it is expected that the agreement will cover the following public activities:

1. Acquisition and demolition of existing improvements and sale of the property,
2. Construction or reconstruction of streets, alley, and other facilities and utilities,
3. Vacation and/or opening of streets and alleys, in part or entirety,
4. Investigation and remediation of environmental contamination,
5. Contribute to the cost of making improvements to Johnsons Park,
6. Provide loans or grants to existing property owners, and
7. Any and all other project and site improvements or activities defined in sec. 66.1105(2)(f) 1., Wisconsin Statutes and considered appropriate and necessary for the achievement of project objectives and the commitment of private investment.

This Plan is not intended to limit and shall not be interpreted as limiting the Redevelopment Authority in the exercise of its powers under Section 66.431(5). Wisconsin Statutes, within the District.

II. PLAN PROPOSALS

A. Statutory Requirements

Section 66.1105(4)(f), Wisconsin Statutes, requires that a Project Plan for a Tax Incremental District shall include:

"... a statement listing the kind, number and location of all proposed public works or improvements within the district or, to the extent provided in subsection (2)(f) 1.k., outside the district, an economic feasibility study, a detailed list of estimated project costs, and a description of the methods of financing all estimated project costs and the time when the costs or monetary obligations related thereto are to be incurred. The plan shall also include a map showing existing uses and conditions of real property in the district; a map showing proposed improvements and uses in the district; proposed changes of zoning ordinances, master plan, if any, map, building codes and city ordinances; a list of estimated non-project costs; and a statement of a proposed method for the relocation of any persons to be displaced. The plan shall indicate how creation of the tax incremental district promotes the orderly development of the city."

The plan shall also include an opinion of the City Attorney or of any attorney retained by the City advising whether such plan is complete and complies with Section 66.1105(4)(f), Wisconsin Statutes.

B. Compliance with Statutory Requirements

The following statements, maps and exhibits are provided in compliance with the statutory requirements.

"Statement of the Kind, Number, and Location of All Proposed Public Works or Improvements."

The plan includes the public works and improvements described in general below. The specific kind, number, and locations of public works and other improvements will be based on detailed final plans, approved for the project and site development in consultation with the Department of Public Works. Public works will generally consist of improvements in the public right-of-way that will restore or upgrade public facilities and the public environment, including the reconnection of the street grid and will be supportive of and located adjacent to properties to be redeveloped. Other improvements may include monetary contributions to RACM for property acquisition, site clearance, and environmental testing and remediation. Based on preliminary planning and design concepts in connection with the implementation of this Plan, the following types of public works and improvements are potential project costs: The number and location of the proposed public works and improvements are shown on Map No. 4, titled "Proposed Improvements," and are listed below:

(a) Site Acquisition	\$	250,000
(b) Demolition, remediation	\$	50,000
(c) Johnsons Park Improvements	\$	100,000
(d) Loans/grants for rehab of existing properties	\$	100,000
(e) Public Infrastructure	\$	<u>2,300,000</u>
Subtotal	\$	2,800,000

"Detailed List of Estimated Project Costs."

The kind, number, location and estimated costs of public works and improvements necessitated by this project as identified above, are based on preliminary plans and concepts developed in consultation with the Department of Public Works and as part of the preparation of the economic feasibility study for the District. These may be modified as to kind, number, location, and the costs reallocated at any time during project execution based on more definitive engineering studies and construction plans without amendment of this Plan.

The costs included in this subsection and detailed in Table "A" which follows are, without limitation hereof because of enumeration, claimed as eligible Project Costs as defined under Section 66.1105(2) (f) and, if appropriate, in any Cooperation Agreement (s) presently or subsequently entered into by and between the City of Milwaukee, the Redevelopment Authority of the City of Milwaukee, and/or eligible designated redeveloper(s), which agreements are incorporated herein by reference, provided further that such expenditures are necessitated by this Project Plan.

These costs and cost estimates are more fully described as follows:

Capital Costs: A statement of the kinds of activities proposed for the project is included in subsection II.B. of this Plan. This category of costs includes those items which may be undertaken only in conjunction with Redevelopment Projects under provisions of Section 66.431, Wisconsin Statues, as determined during the course of project execution/implementation, and may also include the City’s cost of grants to RACM.

Other Costs: This category of Project Costs includes estimates for administrative, professional, organizational and legal costs. Components of the "other costs" include, in general, costs of salaries and employee benefits for employees engaged in planning, engineering, implementing, and administering activities in connection with the tax increment district. Related costs of supplies, materials, contract and consultant services, rental of space and equipment, and the

reasonable costs of City departments and agencies having oversight responsibilities due to the creation of this District. Such services include but are not limited to purchasing, property appraisals, personnel, legal, accounting, auditing, the provision of space and maintenance, and costs charged in accordance with an approved cost allocation plan.

Financing Costs: Financing costs include estimated gross interest expense on bonds that will be issued to pay for Project Costs. Estimates of bond interest are based on interest rates as set forth in the Economic Feasibility Analysis for this Project.

Table A: Estimated Project Costs²

1	<u>Capital:</u> Acquisition, Demolition, Remediation, Rehab Loans/Grants, Public Improvements (net)	\$2,800,000
2	<u>Other:</u> Administrative, professional, organizational and legal, Total Estimated Project Costs, excluding financing	\$ 150,000 \$2,950,000

"Economic Feasibility Study."

The Economic Feasibility Study for this District, prepared by S. B. Friedman and Company and titled *Economic Feasibility Study: Tax Increment District No. 63* is on file with the Department of City Development. The study establishes the dollar value of project costs which, based on certain general assumptions and a reasonable margin of safety, can be financed with the revenues projected to be generated by the proposed tax incremental district.

Based upon the anticipated tax incremental revenue to be generated by this project, the District is financially feasible and is likely to be retired on or before the year 2027. Should incremental revenues be generated in excess of those currently anticipated, they will be used to offset the public costs of Plan implementation.

"Estimated Method of Financing Project Costs"

Sale of General Obligation Bonds:

Financing for the District’s project costs will be accomplished either:

1. through issuing tax-exempt and taxable general obligation bonds (\$2,950,000 excluding capitalized interest,) or
2. through a Cooperation and Contribution agreement with the Federal National Mortgage Association (Fannie Mae.) Under this approach, the City would repay Fannie Mae only an amount equal to the actual tax incremental revenue received in the District each year. This approach is currently being discussed with Fannie Mae.

The estimated method of financing may change during the project period. Consequently, the method identified may, during the course of project implementation and as circumstances warrant, be redefined, and the dollar amount adjusted, without formal modification of this Plan.

"Time when the costs or monetary obligations related thereto are to be incurred"

The Summary of Project Costs (Schedule "1" below) identifies the year in which actual expenditures for the cost of public works and improvements described in this plan is expected to be incurred. This schedule anticipates the time costs will be incurred, not the time contracts or other obligations may be entered into. The estimates presented are subject to change as actual circumstances during the project execution period may require. However, all expenditures will be made prior to the year 2027 pursuant to the provisions of s. 66.1105(6)(am), Wisconsin Statutes.

² The City of Milwaukee and/or RACM reserve the right to undertake only those activities that are economically feasible and appropriate during the project, and which will lead to growth of the tax increment.

Schedule 1
Estimated Timing of Project Costs

Year	Estimated Project Cost	Cumulative Total
2006	\$1,300,000	\$1,300,000
2007	\$1,500,000	\$2,800,000

"Map Showing Existing Uses and Conditions."

Please refer to Map No. 1, "Boundary and Existing Land Use," and Map No. 2, "Structure & Site Condition," in the Exhibits Section, which follows.

"Map Showing Proposed Improvements and Uses."

Please refer to Map No. 3, "Proposed Land Uses," and Map No. 4 "Proposed Improvements" in the Exhibits Section, which follows.

"Proposed Change of Zoning Ordinances, Master Plan, Building Codes and City Ordinances."

Please refer to Map No. 5, "Existing Zoning." The present zoning ordinances, master plan, building codes, and other city ordinances will not require any amendments.

"List of Estimated Non-Project Costs."

None.

"Proposed Method for Relocation."

No occupied properties are currently identified for acquisition in this plan, and therefore no individuals or families are to be displaced. If, at a later date, RACM determines that relocation will be necessary, the cost and method of relocation will be included in a Redevelopment Plan and associated Relocation Plan prepared pursuant to sec. 66.1333 and sec. 32.05, Wis. Stats. The costs of such activities will be eligible for reimbursement through tax increment revenues should such revenues be generated during the statutory life of the District.

"Statement Indicating How District Creation Promotes Orderly City Development."

The proposed District is consistent with the recommendations contained in the Fond du Lac and North Neighborhood Plan and with the prevailing zoning in the surrounding area. The redevelopment of the site has also been identified as "a catalytic project" in the Fond du Lac and North Neighborhood Plan, which was adopted as part of the comprehensive plan of the City of Milwaukee in 2004. It will support the past and ongoing residential redevelopment efforts in the surrounding neighborhood.

"Opinion of the City Attorney."

Please refer to the letter dated December, 2005 prepared by the office of the City Attorney.
