To Whom it may Concern:

I am writing to you to ask that the proposed development project for Downer Avenue be rejected. My husband and I like to shop and visit that area because it brings a feeling of warmth and comfort of the way Milwaukee used to be. It still can be that way if it's preserved and respected. We're not against development, but not the kind proposed. It isn't fair to people who enjoy visiting the area and especially to those who live there. Please help preserve the area for future generations to shop and enjoy the way we have been able to do.

Yours truly,

Mary and Don Boettcher
