Alderman Michael D'Amato
City of Milwaukee Common Council

Re: File #061111
Zoning, Neighborhoods & Development Committee meeting

Mr. D'Amato

We have lived adjacent to the property since 1979 and currently own properties in a one block radius of the proposed development.

Since its inception, the plan has had our full approval. When discussed with many of our neighbors, we have yet to discover a one that does not feel this project will be a much-needed improvement/addition to the growth of Brewer's Hill.

This is also a huge improvement for North Holton Street.

As Brewer's Hill residents we would love to see this item approved and give Mr. Olson our blessing.
