Re: Letter of Support for DE-FOA-000168

Control Number: 1168-1554

To Whom It May Concern:

The Midwest Energy Research Consortium is pleased to support the proposed Location, Location, Efficiency! (L.L.E!) solution in response to the EERE's Advancing Solutions to Improve the Energy Efficiency of U.S. Commercial Buildings (DE-FOA-0001168). The City of Milwaukee has a proven track record of successfully implementing innovative programs seeded with EERE funds that have tangibly improved the commercial, residential, and industrial buildings stock. L.L.E! is a promising market-ready solution to improve energy efficiency in the commercial building sector that can be scaled across Wisconsin and the U.S.

The Midwest Energy Research Consortium also has a proven track record of creating change in commercial buildings. We are especially proud of [list particular achievements]. We are pleased to support L.L.E! With the following contributions:

- 250 Hours of additional consulting and workshop facilitation time @ \$ 90.00/Hour
[In kind total \$22,500]
- Additional Facility and Facilitation for Six Workshop Technology Symposiums
[In kind total \$33,000]
- Class B and C Building related Selected Sections of M-WERC Proprietary BEE Roadmap Library
[In kind Total \$24,000]

We look forward to participating in this project and helping reach our mutual goals of energy efficiency, and more competitive commercial buildings.

Sincerely,

Alan Perlstein
Executive Director
Midwest Energy Research Consortium
