Subject: Vote Yes for Streetcar Project

Joe,

Please vote in favor of the streetcar project.

I wanted to send my total support for the Milwaukee Streetcar project. As an entrepreneur who choose to locate downtown Milwaukee and as a father of 3 choose to live in the city, I want to live in a growing world class city that attracts young professionals, downtown development projects and conventions.

The street car project will do that for Milwaukee. I travel often and see other cities where streetcars and light rail have a positive impact on my travel and those who I know who live both in the city and outside (Twin Cities). This combined with the already committed Federal funding to kickstart the project lead me to support the initiative.

Please vote in favor of the streetcar project.

Thanks you,

Shane Krukowski
