Hello,

I'm writing to express my concern regarding the upcoming meeting and commission decision about installing a data center in Milwaukee.

I want to express my grave dissatisfaction with this possibility, allowing a data center to be built in the middle of our beautiful city will cause a major degree of noise, air, and environmental pollution.

Additionally, it will adversely effect power pricing and demand, as can be seen in localities such as those in Northwest Indiana that have seen energy prices skyrocket following the establishment of data centers in their communities.

As a taxpayer and voter in Milwaukee I appreciate your attention to this matter and count on you to make the right decision.

Sincerely,
Mitchell Zinck
