SHEETS	4' X 8' DECKING OSB <u>          </u> - SPOT REPLACEMENT					
	4' X 8' DECKING OSB <u>          </u> - FULL RE-DECK					
BOX	DECKING NAILS (1 BOX PER 90 SHEETS) (NAILS ORDERED ON FULL RE-DECKS ONLY)					

**INSTRUCTIONS**

# REPORT SUMMARY

## All Structures

Areas per Pitch				
Roof Pitches	0/12	8/12	12/12	17/12
Area (sq ft)	257.0	28.8	2588.1	272.0
% of Roof	8.2%	0.9%	82.3%	8.6%

The table above lists each pitch on this roof and the total area and percent (both rounded) of the roof with that pitch.

Structure 1 Waste Factor:	<b>15.19%</b>	<p><b>Accounts for waste due to ineffective shingles pulled from bundles. Shingles will be high nailed, installed crooked, installed with the wrong offset, etc. Handling waste provides the ability to remove/replace in qualifying scenarios to guarantee a quality install.</b></p>
Structure 1 Surface Area Including Waste:	<b>33.28</b>	
Structure 2 Waste Factor:	<b>#DIV/0!</b>	
Structure 2 Surface Area Including Waste:	<b>0.00</b>	
<b>Total Surface Area Including Waste:</b>	<b>33.28</b>	

Additional materials needed for ridge, hip, and starter lengths are not included in the above table. The provided suggested waste factor is intended to serve as a guide—actual waste percentages may differ based upon several variables that EagleView does not control. These waste factor variables include, but are not limited to, individual installation techniques, crew experiences, asphalt shingle material subtleties, and potential salvage from the site. Individual results may vary from the suggested waste factor that EagleView has provided. The suggested waste is not to replace or substitute for experience or judgment as to any given replacement or repair work.

## All Structures Totals

Total Roof Facets = 14

### Lengths, Areas and Pitches

Ridges = 102 ft (6 Ridges)  
 Hips = 10 ft (2 Hips).  
 Valleys = 106 ft (6 Valleys)  
 Rakes<sup>†</sup> = 194 ft (12 Rakes)  
 Eaves/Starter<sup>‡</sup> = 178 ft (21 Eaves)  
 Drip Edge (Eaves + Rakes) = 372 ft (33 Lengths)  
 Parapet Walls = 0 (0 Lengths).  
 Flashing = 46 ft (8 Lengths)  
 Step flashing = 42 ft (9 Lengths)  
 Predominant Pitch = 12/12  
**Total Area (All Pitches) = 3,146 sq ft**

### Property Location

Longitude = -87.9108899  
 Latitude = 43.0571442

### Notes

This was ordered as a residential property. There were no changes to the structure in the past four years.
