Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

This area is a food desert and the first thing you propose for this area is a data center?!?Shame on this city. It's going to destroy natural resources. Also a meeting being held at 1:30 on a Monday while everyone is at work is outrageous. How is anyone supposed to show up to oppose said data center when most of us have 9-5s or multiple jobs. Jobs which this data center will not create because everything is AI. There needs to be a vote on this. Data centers are a waste of space. Tell us what it will give to the community?
