**Subject:** Rehabilitation & five-story rooftop addition at 600 N. Broadway

Attention: City Clerk Jim Owczarski  
Tim Askin, Historic Preservation Staff

My name is Donald S. Arenson and I am the property owner/residence at 608 N. Broadway, adjacent to the 600 N. Broadway building; I have lived downtown in my buildings since the early 80"s. I strongly object to the proposed development at 600 N. Broadway. This proposal would double the size of the existing building and would be in TOTAL conflict with the standards of the Historical Preservation Commission. Further, I was not any time contacted prior to this plan being submitted; I, however, called the owner after I was informed about the proposal. Additionally, I was turned down to replace eight(8) windows on my building that would be EXACTLY like the existing windows on the fourth floor of my building because of the commission standards. This project, as mentioned previously, is certainly not in line with the Historic area and I again object to this proposal. Why do we have this commission if the standards could change and this project is approved?

Respectfully,

Donald S. Arenson  
608 N. Broadway  
Milwaukee, Wi .53202
