**ACEVEDO FAMILY STATEMENT REGARDING
FPC SPECIAL MEETING FOR CHIEF ALFONSO MORALES**

MILWAUKEE, WI---July 18, 2020 - The Acevedo family offers its full support to the FPC as it issues directives to Chief Morales. In any organization, leadership and organizational solutions must start from the top. This is especially imperative when it involves police departments tasked with the duty to protect and serve. The lack of transparency, the failure to discipline, and a culture of willful blindness, is a dangerous precedent that has real consequences; not only to the Acevedo family, but also to the residents and citizens of the City of Milwaukee.

This city needs a new beginning - whether by resignation or termination. It is our hope that this action will result in a change of culture, because the status quo will not suffice.
