To the Members of the City Planning Commission:

Please accept these observations from a concerned citizen of Milwaukee.

The plans for Downer Avenue redevelopment, and the sale of the land to New Land Enterprises, need to be aborted. I agree strongly with the National Trust for Historic Preservation, and submitted points similar to theirs in my prior email to City Hall.

Please do not let the dollar rule. Let Milwaukee's fine heritage be preserved, and trust that from that heritage will come the folks with worthy solutions for generating revenue and a renaissance which will also protect the citizens living in that community.

Thank you for your responsible consideration,

Jody Ranbarger

Subject: Downer Ave

please don't let this abomination of the beautiful historic downer avenue go through. as a resident of milwaukee for 25+ years, including 10 years within blocks of downer avenue, i value the small segments of our neighborhoods that remind us what milwaukee once was. painted over woodwork can be cleaned up....once this development goes through, we'll lose the character of that village within our city forever.
