Subject: Quarterly Report

Attached is our report to the Public Safety Committee concerning enforcement of Quality of Life ordinances during the first quarter of 2001.

A paper copy, including the printouts provided by the Milwaukee Police Department which are the basis for the analysis, has been sent to Anthony Zielinski.

The report shows that while the number of citations is higher than the previous report quarter, it is much lower than the equivalent quarter of the previous year.

I will be on vacation for the next three weeks. Please address any questions about the report to FPC Executive Director Joseph Czarnetzki.
