City Clerks Office

My name is La Wanda Holt and I'm writing about a accident on December 13th 2002 at the plaza East building 330 east Kilbourn. I work for Central Parking System I am a parking Attendant. I arrived to work at 5:30 am I parked my car In front of the Plaza East Building right near the entrance and exit of the underground parking structure (place of work).

Around 6:00 I had to meet My Supervisor at the Plaza East Pavilion (Plaza East Second Garage) which is located across the street.

As I was walking to my car I step down off of the curb into a hole in the street. I never saw the hole because at this time in the morning it's still dark. I also don't walk looking at the ground.

I really don't have any experience when it comes to problems like this. I've tried to talk to lawyers about this situation but it seems like no one wants to help me when it comes to the city. My right ankle was damaged I have had surgery and I'm still seeing the doctor.

My foot will never be the same .

My doctor name is Doctor Todd Swanson he works at the Blount Orthopaedic Clinic(625 East ST. Paul Avenue).
