

March 15, 2010

To the Honorable, the Common Council

Subject: 2010 Congestion Mitigation/Air Quality Program
Install Coordinated Traffic Signals – Six All-Way Stop Intersections

Dear Council Members:

The 2010 Congestion Mitigation/Air Quality Program includes the installation of coordinated traffic signals at West Howard Avenue and South 43rd Street, West Howard Avenue and South 51st Street, West Howard Avenue and South 68th Street, West Howard Avenue and 84th Street, East Kane Place and North Humboldt Avenue, and West Keefe Avenue and North 51st Street in the 3rd, 7th, and 11th Aldermanic Districts to replace the existing all-way stop control.

The total estimated cost of the project is \$379,240.82. Eighty percent of the total cost, or \$303,392.66, will be funded by the Wisconsin Department of Transportation (WISDOT). The local share, or \$75,848.16, will be provided through the Division's existing Capital Improvement Program with \$9,750 being billed to the City of Greenfield.

We have, therefore, prepared the attached resolution, which authorizes the Commissioner of Public Works to execute a Local Force Account (LFA) – Local contract with WISDOT that allows City forces to install coordinated traffic signals at six all-way stop controlled intersections in the 3rd, 7th, and 11th Aldermanic Districts.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Jeffrey J. Mantes
Commissioner of Public Works
