

Green Infrastructure Funding Agreement G98024P21  
**Green Infrastructure Partnership Program (GIPP)**  
**Riverwest School**  
**2765 North Fratney Street, Milwaukee, WI 53212**

## **1. The Parties**

This Agreement is effective as of the date of last signature below and involves the:

## **2. Basis for this Agreement**

- A. MMSD is responsible for collecting and treating wastewater from local sewerage systems.
- B. During wet weather events, stormwater enters local sewerage systems increasing the volume of wastewater that MMSD must convey and treat and directly enters surface waters, increasing pollution levels in those waterways and increasing the risk of flooding.
- C. Green Infrastructure (GI) includes bioswales, cisterns, constructed wetlands, green roofs, native landscaping, porous pavement, rain barrels, rain gardens, soil amendments, and trees.
- D. GI reduces the volume of stormwater in the sewerage system and the amount of pollutants discharged to surface waters.
- E. MMSD wants to promote the installation of GI and does so through its GIPP providing funding to various entities to install critical GI.
- F. Milwaukee owns land at 2765 North Fratney Street, Milwaukee, WI 53212 (**Land**). MPS maintains and operates the Land and desires to install GI on the Land.

G. The Wisconsin Department of Natural Resources has made Clean Water Fund loans available to MMSD for the construction of various GI installations and such funds may be used herein.

- B. Complete construction on the Project before **December 31, 2026**;
- C. Install educational signage that:
  - (1) Is either designed and provided by MMSD or provided by MPS and approved by MMSD,
  - (2) Is in a location approved by MMSD, and

After the completion of the Project, Milwaukee and MPS will execute a conservation easement in favor of MMSD. The extent of the conservation easement will be limited to the GI installed under the Project. The duration of the conservation easement will be **11 years**.
