**Please provide the following information:**

**1. Description of Grant Project/Program (Include Target Locations and Populations):**

This grant will aid the City of Milwaukee Tuberculosis Control Clinic (TBCC) in providing outreach, screening and other public health services to refugees. Foreign-born persons are a high-risk group for developing tuberculosis. Refugees are screened for tuberculosis, hepatitis, lead poisoning, pregnancy, parasites and other enteric diseases. Needed immunizations, health education and acquaintance with health care delivery systems are also provided. During the previous grant cycle 242 refugees were screened. It is expected the number of refugees needing screening in the new grant period will be approximately 275 individuals. During 2005, individuals from countries with high rates of tuberculosis represented 64% of all new cases of tuberculosis reported by the City of Milwaukee.

**2. Relationship to City-wide Strategic Goals and Departmental Objectives:**

The goals and objectives of this grant are consistent with the City-wide strategic goal of improving the health of its citizens and the Health Department objective of reducing illness from communicable disease.

**3. Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):**

Refugee Screening Grant funds help pay for services and supplies expended in outreach and screening activities.
