

February 25, 2002

To the Honorable  
Common Council

Subject: Major Street Improvements  
Federal/State Aid – Water Service Connections

Dear Council Members:

The Common Council of the City of Milwaukee has previously adopted resolutions authorizing and directing the Commissioner of Public Works to execute project agreements for programming and construction of the improvement of several major streets with Federal/State Aid for construction in 2002.

The projects include revisions to the median islands, which will require alterations to the water service connections of the concealed irrigation system.

Funds for water service connections required on State and/or Federally Aided projects are included in the 2002 Budget for State and/or Federally Aided Major Street Improvement Projects.

We have, therefore, prepared and recommend adoption of the attached resolution authorizing the Commissioner of Public Works, upon project approval by the Common Council to make the necessary alterations to the water service connections to the median islands along several major streets scheduled for construction with Federal/State Aid.

This resolution also authorizes the City Comptroller to transfer \$146,000, which is the estimated cost of the water service alterations, to the Capital Purpose Subaccount.

Very truly yours,

Jeffrey S. Polenske, P.E.  
City Engineer
