

# MILWAUKEE BOARD OF SCHOOL DIRECTORS (BOARD)

## ADOPTED BUDGET FOR THE

# AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)

Qualified School Construction Bonds (QSCB)

Working Together - Achieving More

### American Recovery and Reinvestment Act Proposed QSCB Budget

#### **OVERVIEW**

The American Recovery and Reinvestment Act (ARRA) gives Milwaukee Public Schools the ability to issue \$144 million in interest-free bonds over the next two years.

The FY10 maximum allocation has been set at \$72.1 million. Bond revenue can be used for construction, modernization, renovation and repair of district facilities. The bonds must be repaid from construction and/or school operation funds over the next 15 years.

The number of projects the district undertakes is contingent on the amount of bonds the city will issue on behalf of MPS. It is unlikely that the entire \$144m will be affordable. District staff are working with the city on this matter.

At the June 4, 2009, meeting of the Board, the Board authorized the administration to work with the city to secure ARRA bonds up to \$53.1 million for the following purposes: deferred maintenance, FY10 major maintenance and curriculum enhancement projects.

QSCB eligible projects costs are below.

Initiative	FY10	Description
Deferred Maintenance	\$30.2m	Address the current backlog of deferred maintenance. The district's infrastructure will be improved and equipment will be replaced before repair costs become extensive.
FY10 Maintenance Projects	\$16.9m	Use QSCB funds as an alternate source for paying FY10 major maintenance costs that otherwise would be funded through the Construction Fund levy. The FY10 levy authority can then be used for other school operations purposes.

Initiative	FY10	Description
Curriculum Enhancement	\$ 6.0m	These enhancement projects, most often lab space, are critical to the continued success of programs in science, technology, engineering, and math. Other proposed projects include facility improvements that will allow early childhood programs to qualify for certification and minor building modifications for several high school technology programs.
Total	\$53.1m	

A detailed listing of the projects is presented in the FY10 budget section of this document.

### ARRA: FACILITIES IMPROVEMENT

## Mission Statement

To reduce the district's deferred maintenance backlog, enhance successful curriculum programs and address FY10 maintenance needs which would otherwise be funded by the construction fund tax levy.

# Urgent Facts

- MPS has \$26 million in deferred maintenance needs.
- Twenty-one MPS sites require facility modifications to implement and support science, technology, engineering and math programs.
- ARRA provides interest-free construction loans with a 15-year pay-back schedule.

## District Strategic Goal(s) Supported:

Strategic Goal #6: The district is responsible for measurable results.

Strategic Goal #7: The district's central services departments support student learning

Functional Plan(s)
Alignment:

- Facilities Management Plan

- Community Recreation and Student Enrichment Plan

#### PROGRAM DESCRIPTION

Key Strategies

<sup>•</sup> Re-program and accelerate over the next three years deferred maintenance projects in Facilities Capital Plan.

<sup>-</sup> Sell properties to reduce maintenance needs of closed facilities.
