This data center doesn't need to be built AT ALL. It will be a horrible waste of building. They should turn it into something enjoyable for the youth. Young kids in MKE already don't have a lot. You're going to be taking away more by building a useless data center. The energy output is going to be horrible for everyone in the near area. The fact that someone would want to build it there is horrible and disgraceful. PLEASE DO NOT BUILD THIS DATA CENTER!
