Finance and Personnel Meeting: May 12, 2010

Department Account Name	Amount of Transfer		Reason
	From	To	
<u>DEPT. OF PUBLIC WORKS</u> <u>SEWER MAINTENANCE</u> PCB Removal Operating Expenditures	\$130,000.00	\$130,000.00	Funds are available from the PCB Removal Special Fund because the US EPA will not complete its review and permitting of the city's PCB removal plan in 2010. The \$130,000 would be used in the operating budget to award a contract to perform monthly inspections of the City's sanitary bypass pumps and lift stations, as well as conduct high water tests. The current contract for these services expires in May. The new contract will expand and enhance these tests through the year. These tests will provide early warning of pump problems and reduce the risk of pump failures. Pump failures during heavy rains can cause basement backups. This plan was discussed as part of CC Communication #091357.

SCHEDULE C - GENERAL MATTERS

1. Miscellaneous Matters
