## H) LIST ANY ANTICIPATED FUTURE COSTS THIS PROJECT WILL REQUIRE FOR COMPLETION:

Until the actual structuring of the debt issue is determined by the Public Debt Commission, details relating to the long-term fiscal impact will not be known. Historically, City debt of a general obligation bond nature has been structured as 15 year level principal retirement issues. If a taxable bor sale is required, interest rates approx. 21/4% higher than tax-exempt rates can be anticipated.
