To the Honorable, the Common Council

Subject: Ordinance to establish a multiple trip permit for excessive size and/or weight vehicles requiring a police escort.

Dear Council Members:

Due to the large numbers of excessive sized and overweight vehicles that are delivering structural products to the Marquette Interchange Project, it seems appropriate to establish a multiple trip permit for vehicles, which require a police escort on local roads.

A multiple trip permit would reduce City staff time from reviewing a single permit application for a vehicle traveling the same route multiple times. The trucking company would save money since City staff would not be reviewing the same permit details over and over. A set permit fee could be determined, which would cover the City's cost to process the permit.

This multiple trip permit would also prove useful in future projects where multiple trips require a police escort.

It is recommended that this title only ordinance be introduced to the Common Council.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Jeffrey J. Mantes
Commissioner of Public Works
