# COVID-19 CASES/DEATHS

## BY ALDERMANIC DISTRICTS

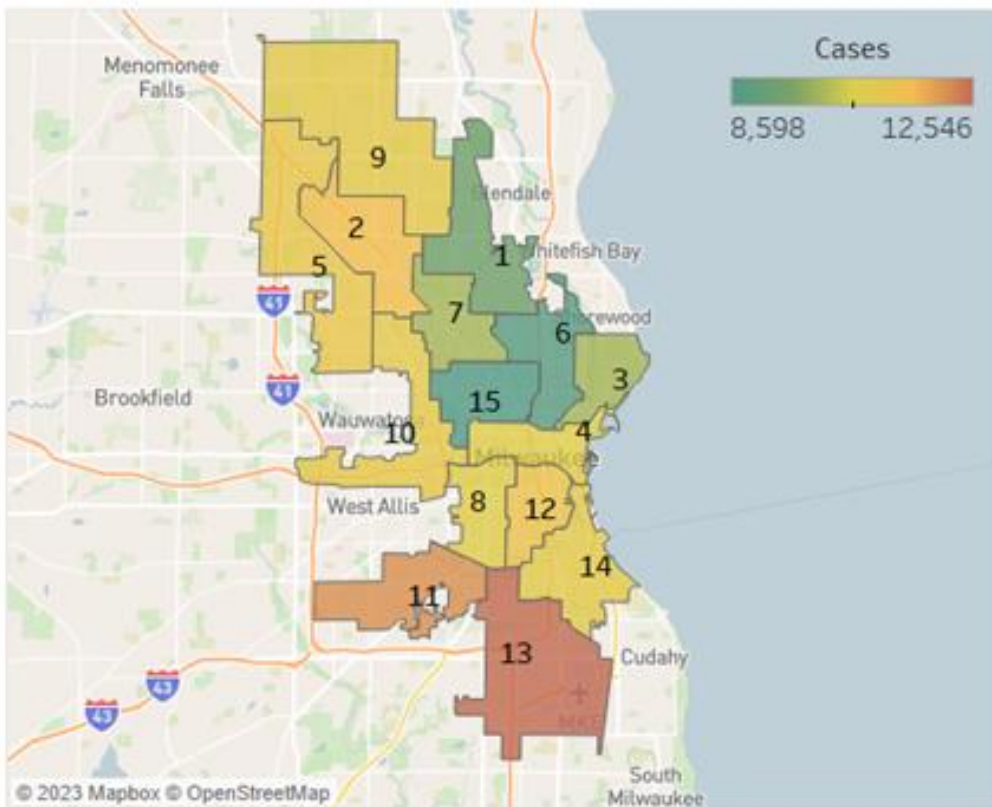

# COVID-19 ALDERMANIC DASHBOARD

MARCH 11, 2020 TO APRIL 19, 2023

This dashboard provides COVID-19 data by Aldermanic District boundaries within the city of Milwaukee. Because COVID-19 data does not contain an Aldermanic District variable in the data collection process, a spatial analysis and other aggregate functions must be created to display data at the Aldermanic District level. For more information, please review the data limitations and disclaimer section.

## NOTE

This dashboard provides a data overview for the date range listed above. For current city level data, please visit the City of Milwaukee COVID-19 Statistics at <https://city.milwaukee.gov/coronavirus>

# COVID-19 BURDEN & VACCINATION

BY RACE/ETHNICITY OVER THE COURSE OF THE PANDEMIC

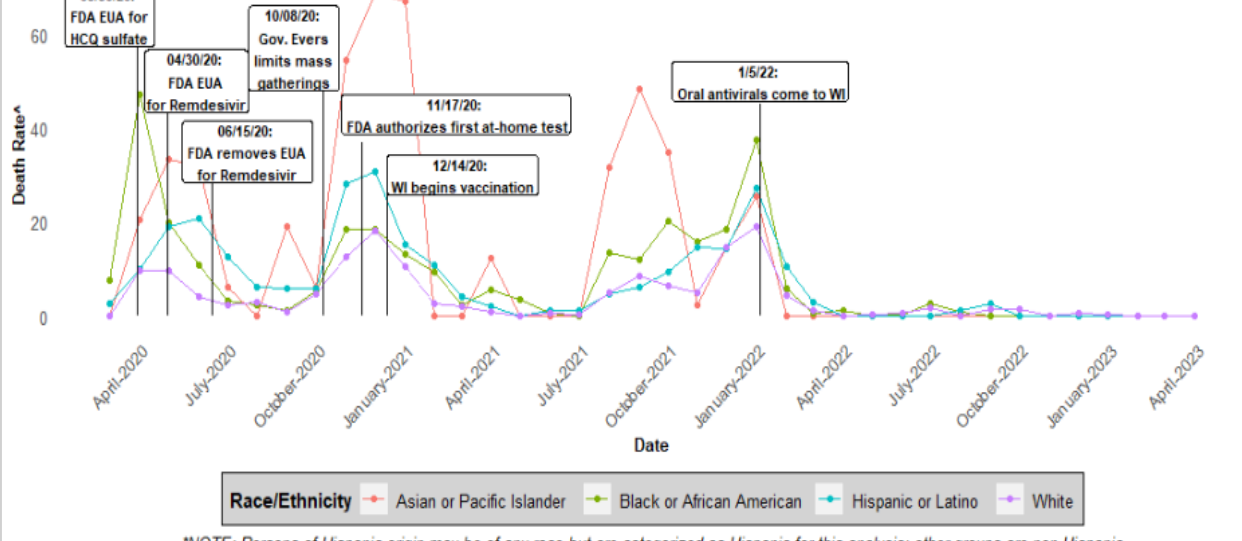

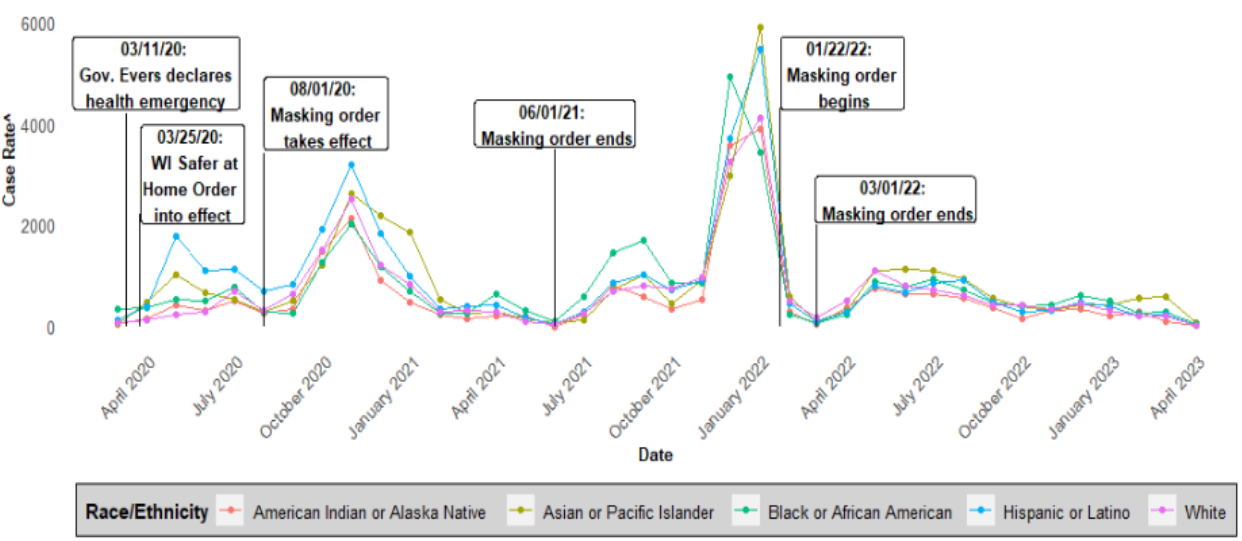

# COVID-19 MONTHLY CASE AND DEATH RATES BY RACE/ETHNICITY

## CASES

## DEATHS

Age-Adjusted Monthly COVID-19 Case Rates by Race/Ethnicity\* in the City of Milwaukee

Age-Adjusted Monthly COVID-19 Death Rates by Race/Ethnicity\* in the City of Milwaukee

\*NOTE: Persons of Hispanic origin may be of any race but are categorized as Hispanic for this analysis; other groups are non-Hispanic  
^Age-adjusted rates are standardized to 2019 U.S. Census Bureau Population Estimates and calculated per 100,000.

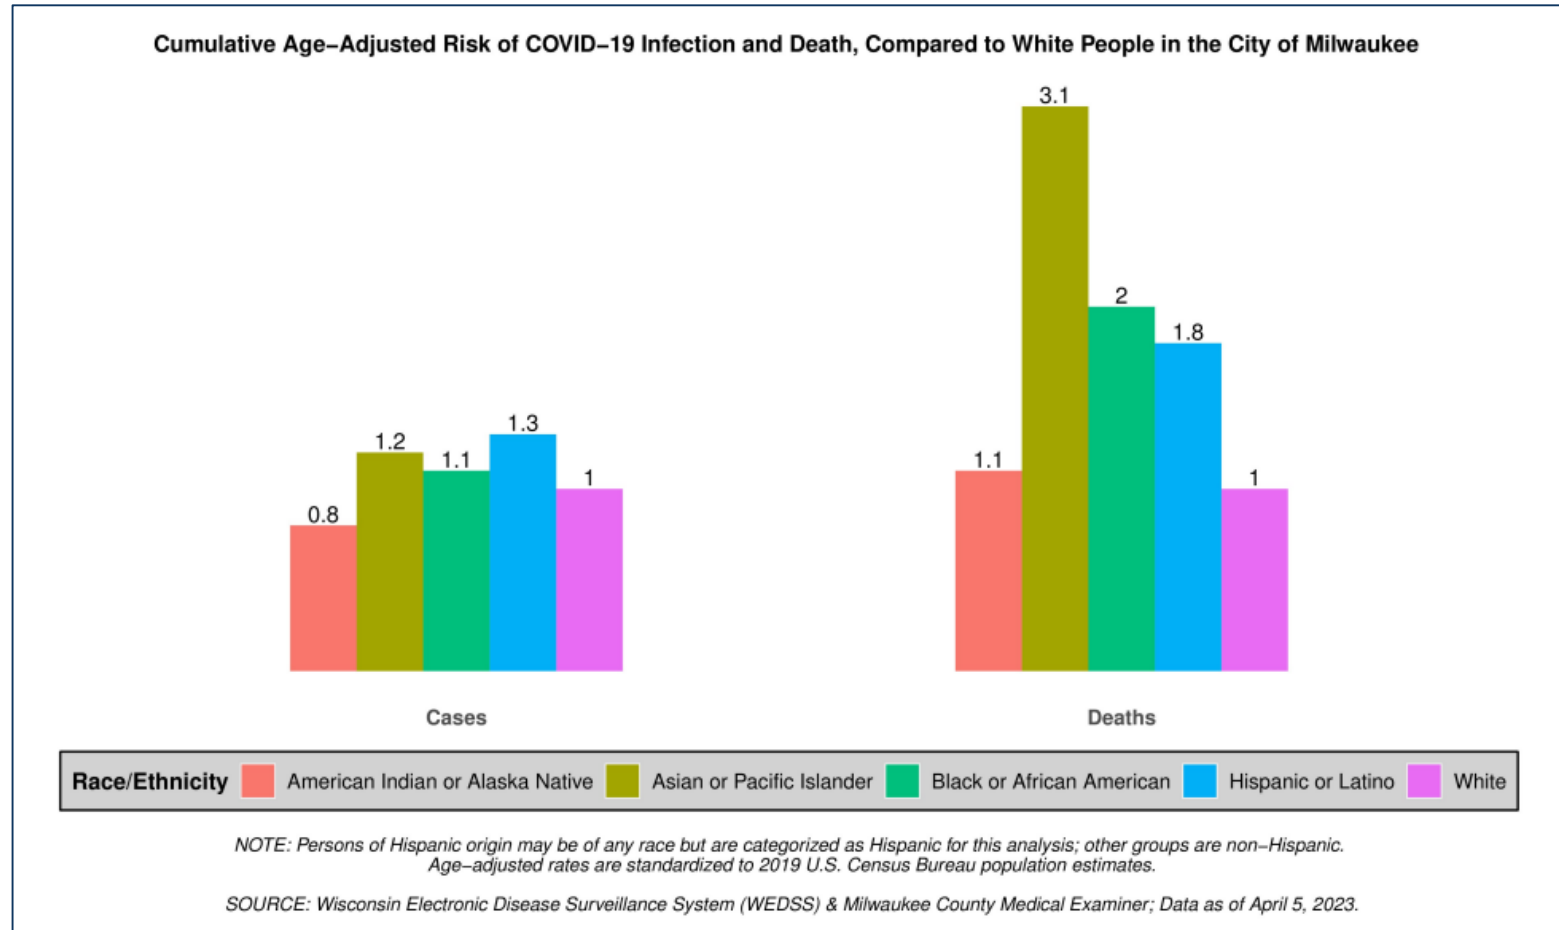

\*NOTE: Persons of Hispanic origin may be of any race but are categorized as Hispanic for this analysis; other groups are non-Hispanic  
^Age-adjusted rates are standardized to 2019 U.S. Census Bureau Population Estimates and calculated per 100,000.

Data Source: Wisconsin Electronic Disease Surveillance System (WEDSS); Data as of April 05, 2023

Data Source: Milwaukee County Medical Examiner; Data as of April 05, 2023

- Disparities have generally widened for people of color compared to White people during periods in which the virus has surged
- For most of the pandemic, White people have had lower age-adjusted case and death rates than Asian and Pacific Islander, Black, and Hispanic people. Please Note: Due to low counts AI/AN(s) were excluded from the death rate chart.

# CUMULATIVE RELATIVE RISK OF COVID-19 INFECTION AND DEATH FROM MARCH 14<sup>TH</sup>, 2020 TO APRIL 5<sup>TH</sup>, 2023

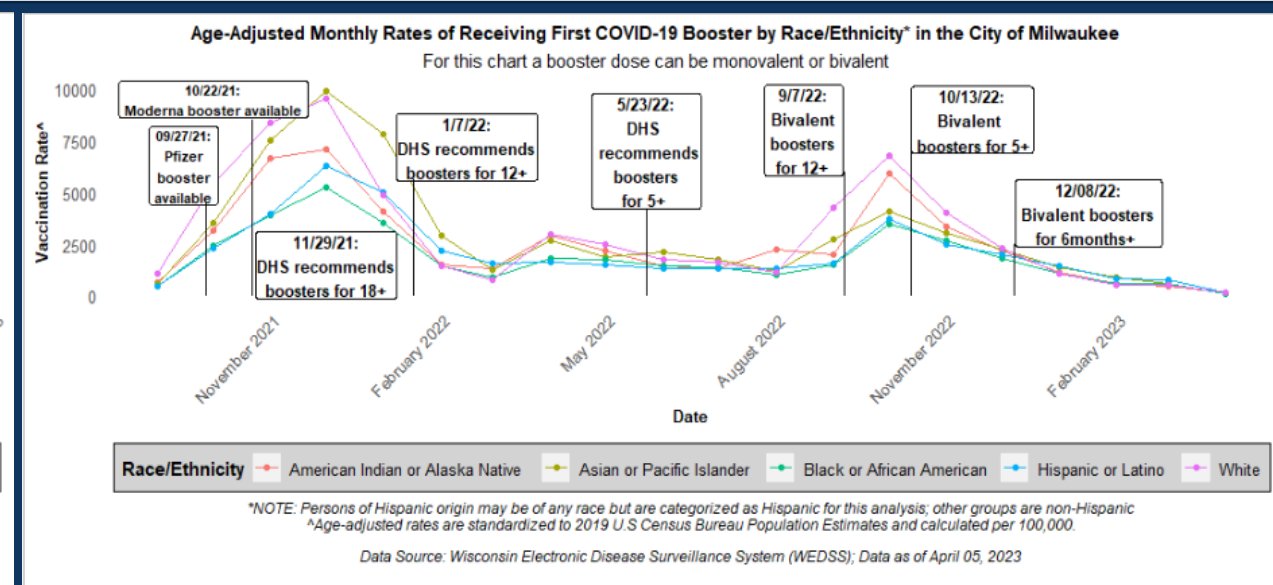

- Asian or Pacific Islander, Black, and Hispanic people were more likely to have experienced higher rates of COVID-19 cases and deaths than White people

# COVID-19 MONTHLY VACCINATION RATES BY RACE/ETHNICITY

## COMPLETION OF PRIMARY SERIES

## FIRST BOOSTER UPTAKE (MONOVALENT OR BIVALENT)

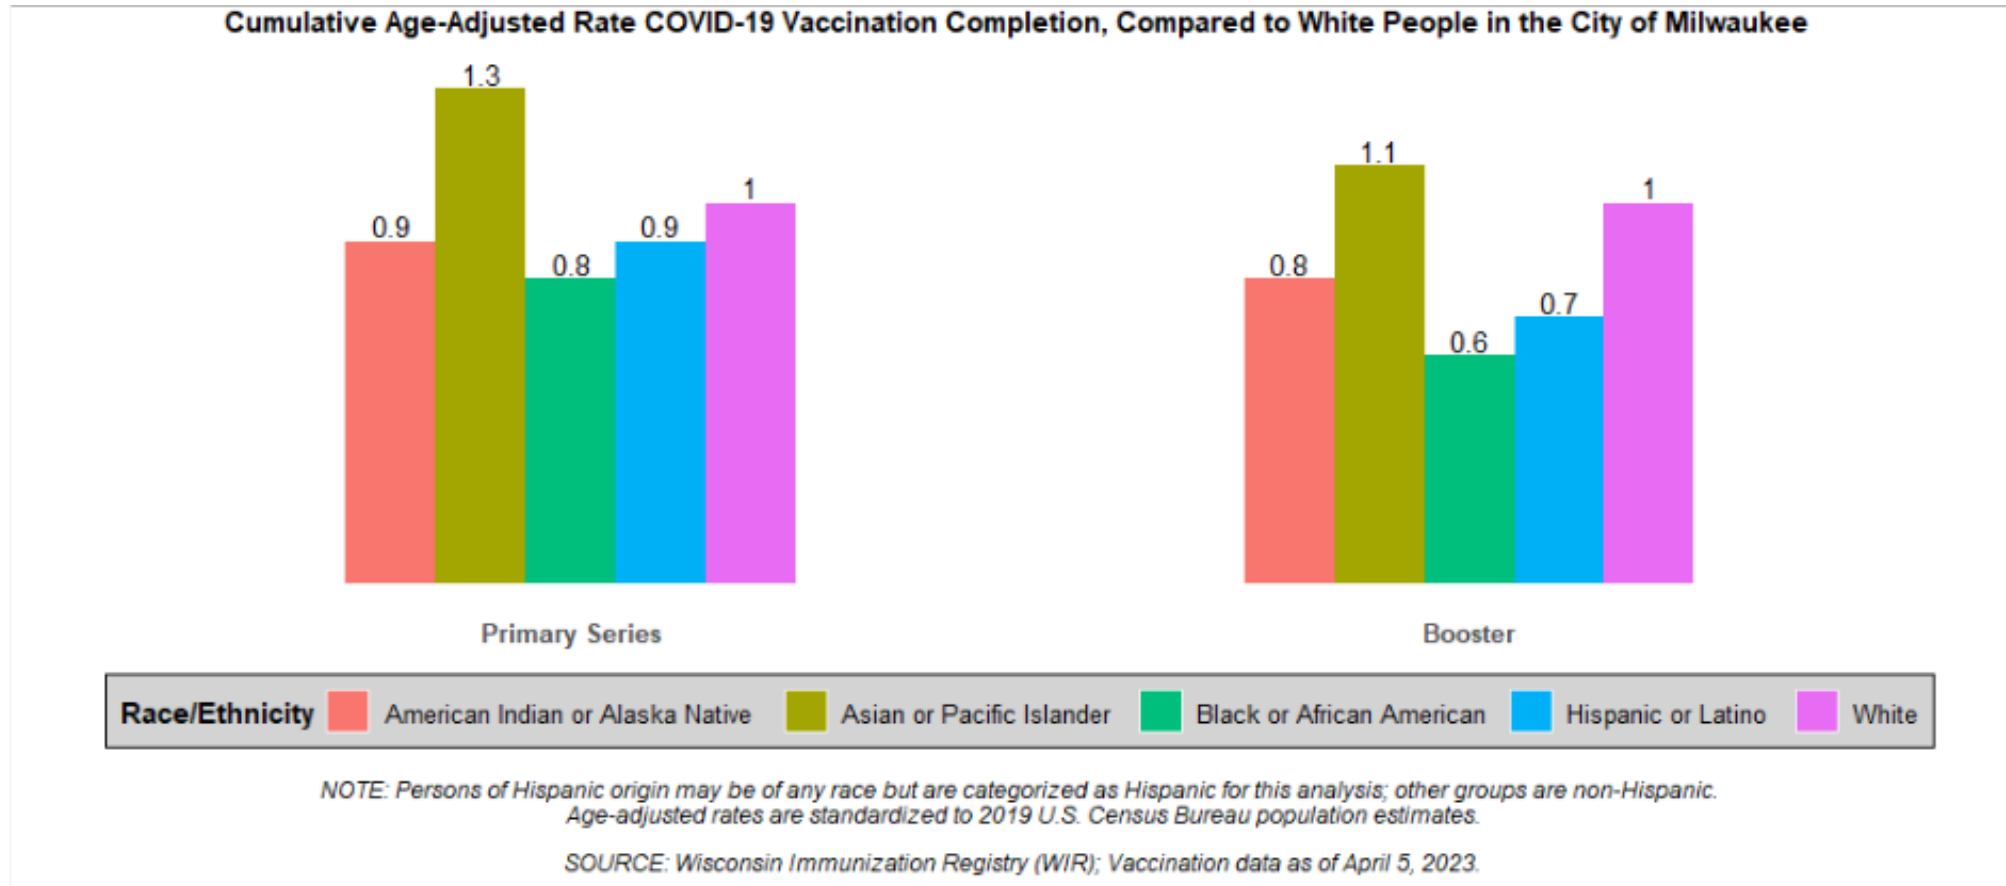

- During initial phases of vaccination rollout and release of new COVID-19 boosters, gaps in vaccination were large for AI/AN, Black, and Hispanic people but over time these gaps have narrowed

# CUMULATIVE RELATIVE RATE OF COVID-19 VACCINATION

FROM DECEMBER 14<sup>TH</sup>, 2020 TO APRIL 5<sup>TH</sup>, 2023

- American Indian and Alaska Native, Black, and Hispanic people were less likely to have completed their primary COVID-19 vaccination series and were less likely to have received a booster in comparison to White people

# FOCUS GROUPS

**WHERE TO NEXT?**

# NATIONAL

## END OF THE COVID-19 PUBLIC HEALTH EMERGENCY (MAY 11, 2023) AND NEXT STEPS

- What's changing

- Simplified COVID vaccine schedule
- Frequency of reporting data
- Medicaid re-enrollment
- Certain programs (test-to-treat exposure notification)

- What's not changing

- Availability of COVID vaccine, testing, and therapeutics
- Data collection and surveillance

# LOCAL

## END OF THE COVID-19 PUBLIC HEALTH EMERGENCY (MAY 11, 2023) AND NEXT STEPS

- Key Changes

- Sunsetting ASKMHDCOVID Email
- Sunsetting COVID-19 dashboard
  - Integrating COVID data into biweekly Respiratory Illness Report which will be found on our webpage
    - Sign up for the email list by contacting [SurvNet@milwaukee.gov](mailto:SurvNet@milwaukee.gov)
  - CCL and wastewater graphic to be displayed on landing page

- Next Steps

- Conducting focus groups with youth regarding mental health
- Continue to incorporate focus group findings into MHD communications
- Creating public COVID-19 dataset
