Re: Accident November 22, 2001

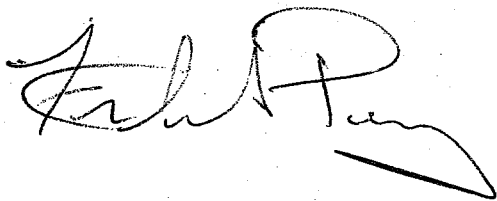

To whom it may concern, My name is Frederica Perry, On November 22, 2001 at around 4:40pm I was traveling West bound on west Locust Street at West Fond Du Lac Ave. Where I made a right turn, Which caused an accident, hitting 2 other cars. This area is under construction, there were no signs there stating that one could not make a right turn, nor that this was a one way street.

My nieces Juanita and Danetta Perry were in the car with me along with my sone Terrence Crampton. Juanita suffered head injuries and leg and back injuries. My son Terrence suffered leg injuries. My car was totally loss. I Frederica Perry was driving the car and sustained injuries to my Abdominal area, legs and chin.

I would appreciated it if Milwaukee County would pay for all damages and losses associated with this accident, along with the physical and mental distress suffered during and after this accident.

I have a good driving recorder and one does not make a mistake like this causing harm to another, I could have killed someone. If there were signs there I would have obeyed them...but there were not, the city did not warn drivers that this area in question was now a one way during construction and that one could not make a right turn. According to records/reports there have been at least two other accidents at this same location, because of no signs posted.

So I am asking for monitory damages in the amount of \$70,000.00 for all losses and damages pain and suffering associated with this accident.. I have enclosed a graph/pictures for your view of the section in question.
