The exterior side yard will have a new poured concrete pad (Approximately 545 sq. ft.). This will create better drainage away from the building, provide a more accessible route to both entrances, and provide exterior seating for the cafe area.

We are proposing poured concrete with a 2'-0" perimeter border (typical, see attached floor plan) that will consist of a stamped pattern to match the ashlar pattern stone at the base of the building. All the concrete will be colored to match the beige color of the existing building.
