I. Description of Project

A. INTRODUCTION

Section 66.1105(4)(d), Wisconsin Statutes, requires the "preparation and adoption... of a proposed project plan for each tax incremental district." This Project Plan is submitted in fulfillment of this requirement and the related provisions of section 66.1105, Wisconsin Statutes.

B. DISTRICT BOUNDARIES

Tax Increment District No. XX, City of Milwaukee ("TID XX" and/or "District") consists of approximately 293 acres of land zoned for residential, industrial and commercial uses. The District is generally bounded by West Capitol Drive to the north, North 26th Street to the east, West Burleigh Street to the south and North 36th Street to the west.

A legal description, map, and property list of the district boundaries as of July 2009 are included as **Exhibits 1 and 2** in the Appendix.

C. PLAN OBJECTIVES

The District is being created under authority of Wisconsin Statute Section 66.1105(2)(a)(1)(b) primarily to assist expansion of the tax base by providing public improvements necessary to promote development and redevelopment of a portion of the former Tower Automotive Site and surrounding properties. The primary intent is the acquisition and site preparation of a portion of the former Tower Automotive site and installation of public utilities, including new roadway construction, storm sewer improvements, lighting, and signage, in order to facilitate development and redevelopment. The resulting new development will increase the tax base and provide additional employment opportunities. It is also anticipated to further the City of Milwaukee's job creation, redevelopment, and reinvestment goals in the 30th Street Industrial Corridor. The proposed plan also includes forgivable loans for qualified improvements to residential properties within the District.

The N. 35th St. and W. Capitol Dr. Tax Increment District largely consists of an underutilized industrial facility and buildings in need of rehabilitation or conservation and therefore was found to be blighted within the meaning of Section 66.1105(4)(gm)(4)(a) of the Wisconsin Statutes. As shown in Exhibit 2, approximately three-fifths (57%) of the acreage within the amended TID boundary was deemed in need of rehabilitation or conservation and 13% was vacant property per Sec. 66.1105(4)(gm) of the Wisconsin Statutes. See **Exhibit 3** for a map of the properties in need of rehabilitation and conservation and vacant properties within the District boundary as of July 2009.

Tax Incremental Financing (TIF) will be used for site acquisition and preparation to facilitate a mixed-use redevelopment project and the improvement of existing residential properties in order to foster investment within the District. The goal is to expand the tax base and create additional employment, retail and housing opportunities within the City.

D. PROPOSED PUBLIC ACTION

The District is intended to provide incremental tax revenue to fund a portion of the estimated \$34.6 million of total capital costs for acquisition, demolition, environmental remediation and site preparation of a portion of the former Tower Automotive site; residential improvements; and related project costs identified in section II.B of this Project Plan. These are the estimated project costs excluding capitalized interest. A more detailed description of the estimated budget and funding sources is included in Section IIB below.

The City of Milwaukee may, on its own initiative or through a cooperation agreement with the Redevelopment Authority and/or other entities, undertake any and all project and site improvements and activities considered necessary to achieve project objectives and the commitment of private investment. This Plan is not intended to limit and shall not be interpreted as limiting the Redevelopment Authority in the exercise of its powers under Section 66.1333(5), Wisconsin Statutes, within the District. It is possible that future amendments to this Project Plan will be proposed.

The mixed-use redevelopment of a portion of the former Tower Automotive site is currently planned. This development has been included in the Economic Feasibility Analysis associated with this Plan. The project is anticipated to contribute about 1.1 million square feet of business park, retail, and residential space upon completion and total projected tax incremental revenues of \$26.4 million over the life of the District.

II. Plan Proposals

A. STATUTORY REQUIREMENTS

Section 66.1105(4)(f), Wisconsin Statutes, requires that a Project Plan for a Tax Incremental District shall include:

"...a statement listing the kind, number and location of all proposed public works or improvements within the district or, to the extent provided in subsection (2)(f)1.k., outside the district, an economic feasibility study, a detailed list of estimated project costs, and a description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred. The plan shall also include a map showing existing uses and conditions of real property in the district; a map showing proposed improvements and uses in the district; proposed changes of zoning ordinances, master plan, if any, map, building codes and city ordinances; a list of estimated non-project costs; and a statement of the proposed method for the relocation of any persons to be displaced. The plan shall indicate how creation of the tax incremental district promotes the orderly development of the city."

The plan shall also include an opinion of the City Attorney or of any attorney retained by the City advising whether such plan is complete and complies with Section 66.1105(4)(f), Wisconsin Statutes, included as Attachment 1 to this Project Plan.

B. COMPLIANCE WITH STATUTORY REQUIREMENTS

The following statements, maps, and exhibits are provided in compliance with the statutory requirements.

Statement of the Kind, Number, and Location of All Proposed Public Works or Improvements

- a. The Plan includes the public works and improvements described in general below. The specific kind, number, location, and estimated costs of public works and other improvements as identified below are based on preliminary plans and concepts developed in consultation with the Department of City Development and as part of the preparation of the economic feasibility study for this District. These may be modified as to kind, number, location, and the costs allocated at any time during project execution based on more definitive engineering studies and construction plans without amendment of this Plan. Actual implementation of public works and improvements will be based on detailed final plans, specification, and estimates as approved by the City's Department of City Development for project and site development. Improvements such as vacation of existing public rights-of-way, land acquisition, site clearance, environmental remediation, and reimbursement to owners of abutting property for costs directly related to the project also may be undertaken if necessary for the implementation of the Plan for the District.
- b. Any expenditures or monetary obligations directly or indirectly related to the public works are considered "project costs" and eligible to be paid with tax increment revenues of the tax incremental district. Project costs will be diminished by any income, special assessments, or other revenues, including user fees or charges. Additional costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning is completed. Allocation of costs between individual line items in the Plan is also based on estimates and subject to change based upon implementation, future assessment policies, and user fee adjustments.
- c. The number, location, and prioritization of the proposed public works and improvements are shown in **Exhibit 4**, titled Map of Proposed Improvements and Uses, in the appendix.

The main focus of this Project Plan is the eastern 74 acre portion of the former Tower Automotive site and 9 acres of associated outlots to the east. As shown in Exhibit 4, the plan includes approximately 70 acres of business park development, four acres of retail and nine acres of single- and multi-family residential. The following public infrastructure improvements, economic development expenditures, and associated administrative activities are expected to occur within the N. 35th St. and W. Capitol Dr. TID:

- Acquisition of a portion of the former Tower Automotive site
- Relocation of the current Tower Site owners and tenants
- Demolition, excavation and asbestos abatement
- Environmental remediation
- New road construction and associated public and private infrastructure/utilities
- Stabilization of existing structures

- Holding costs for the Tower site during the site preparation and redevelopment period
- Stormwater and landscape improvements
- Neighborhood housing improvements
- Job Training
- Administrative and Related Costs

These activities may include elements such as:

- *Organizational Costs*: These costs include but are not limited to fees of the financial consultant, attorney, engineers, surveyors, map makers, and other contracted services.
 - *Development Incentives*: The City or Redevelopment Authority may enter into agreements with property owners or developers for the purpose of sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover project costs.
 - *Administrative Costs*: This category of Project Costs includes estimates for administrative, professional, organizational, and legal costs. Components of the administrative costs include, in general, costs of salaries and benefits for employees engaged in planning, engineering, implementing, and administering activities in connection with the District. Related costs of supplies, materials, contract and consultant services, travel, rental of space and equipment, and the reasonable costs of City departments and agencies having oversight responsibilities due to the creation of this District. Such services include but are not limited to purchasing, property appraisals, personnel, legal, accounting, auditing, the provision of space and maintenance, and costs charged in accordance with an approved cost allocation plan.
 - *Relocation Costs*: In the event any property is acquired for the projects, expenses including the cost of a relocation plan, director, staff, publications, appraisals, land and property acquisition costs, and relocation benefits as required by Wisconsin Statutes Sections 32.19 and 32.195 are considered eligible project costs.
 - *Finance Costs*: Interest, financing fees, redemption premiums, and other financing fees are included as project costs.
- a. With all projects, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for the public works, legal and other consultant fees, testing, environmental studies, permits, updating City ordinances and plans, judgments, or claims for damages and other expenses are included as project costs.

The detailed costs included in the following subsection and detailed in Table A which follows are, without limitation hereof because of enumeration, claimed as eligible Project Costs as defined under Section 66.1105(2)(f) and in any Cooperation Agreement(s) presently or subsequently entered into by and between the City of Milwaukee, the Redevelopment Authority of the City of Milwaukee, and/or eligible designated redeveloper(s), which agreements are incorporated herein by reference, provided further that such expenditures are necessitated by this Project Plan.

In accordance with state statutes and subject to approval by the City of Milwaukee and

RACM, this Plan may be amended to provide public parking, additional public improvements, or financial assistance to developers should such assistance be determined necessary and appropriate to the implementation of this Project Plan.

Detailed List of Estimated Project Costs

This Project Plan is meant neither to be a budget nor an appropriation of funds for specific projects, but a framework with which to manage projects. All costs included in the Plan are estimates based on the best information available. The City retains the right to delete projects or change the scope and/or timing of projects implemented as they are individually authorized by the City Council, without amending the Plan.

Costs are based on 2009 prices and are preliminary estimates. The City reserves the right to increase these costs to reflect inflationary increases and other uncontrollable circumstances between 2009 and the time of construction. The City also reserves the right to increase certain project costs to the extent others are reduced or not implemented, without amending the Plan. The tax increment allocation is preliminary and is subject to adjustment based upon the implementation of the Project Plan. The Department of City Development will only advance further project costs for Council authorization if such costs are linked to additional proposed projects that will generate economic development benefits and property tax revenues. Council action will be required for all proposed future costs.

a. Capital Costs

Capital cost estimates are included within the cumulative project costs total in Table A below.

Table A
N. 35th St. and W. Capitol Dr. (No. XX) Project Costs

Acquisition	\$	3,500,000
Relocation	\$	1,000,000
Demolition, Excavation and Asbestos Abatement	\$	11,900,000
Environmental	\$	6,285,000
Infrastructure and On-Sites	\$	4,430,000
Stabilization and Holding Costs	\$	980,000
Neighborhood Housing	\$	400,000
Contingency (Demolition, Infrastructure, Environmental)	\$	3,392,250
Workforce Development	\$	500,000
Administration and Consulting Costs	\$	2,200,000
Less Capital Budget Contributions	\$	(10,000,000)
Less Outside Grants	\$	(6,828,526)
Less Anticipated NMTC Equity	\$	(2,132,815)
Total Project Costs	\$	15,625,909

Note: Excludes Capitalized Interest

b. Other Costs

This category of Project Costs includes estimates for administrative, professional, organizational, job training, and legal costs. Components of “other costs” include, in general, costs of salaries and employee benefits for employees engaged in planning, engineering, implementing, and administering activities in connection with the District; and related costs of supplies, materials, contract and consultant services, rental of space and equipment, and the reasonable costs of City departments and agencies having oversight responsibilities due to the creation of this District. Such services include but are not limited to purchasing, property appraisals, personnel, legal, accounting, auditing, the provision of space and maintenance, and costs charged in accordance with an approved cost allocation plan. These costs are estimated at \$2.7 million and included in Table A above (note: this figure represents the sum of all line items marked “Workforce Development” and “Administration” above).

c. Financing Costs

Financing costs include estimated gross interest expense on bonds that will be issued to pay for Project Costs. Estimates of bond interest are based on interest rates as set forth in the Economic Feasibility Analysis for this Project. The total interest expense for the project costs stated in subsections a and b, including annual interest payments and capitalized interest, is \$14.1 million, as summarized in Table B below.

Table B
Estimated Total Project Costs [1]

Capital:	
Public Improvements (net of capital grants)	\$ 12,925,909
Other:	
Administrative, professional, organizational and legal	\$ 2,700,000
<i>Total Estimated Project Costs (excluding financing)</i>	\$ 15,625,909
Financing:	
Interest payments on municipal bonds	\$ 14,117,528

[1] Interest is based on an assumed City cost of funds of 4.5% on bonds issued in 2010, and retired by the 24th year of the TID.

Description of Timing and Methods of Financing

Projects identified will provide the anticipated governmental services to the area. While a reasonable and orderly sequence is outlined below in Table C, public debt and expenditures should be made at the pace at which private development occurs to assure increment is sufficient to cover expenses.

Table C
Estimated Timetable for Capital Expenditures

Year	Capital Expenditure
2009	\$ -
2010	\$ -
2011	\$ 9,035,847
2012	\$ 3,744,063
2013	\$ 2,846,000
Total	\$ 15,625,909

Currently, the budget anticipates primarily public expenditures. Private developer assistance would likely be needed only if the redevelopment strategy changes over time, or new projects arise that are likely to create substantially more TID revenues than the current assumed development program.

If private developer assistance is needed, it is anticipated that developer agreements between the City and/or the Redevelopment Authority and property owners will be in place prior to major public expenditures. These agreements can provide for development guarantees or a payment in lieu of development. To further assure contract enforcement, these agreements might include levying of special assessments against properties that incur benefits.

The order in which public improvements are made could be adjusted in accordance with development and execution of developer agreements, and the City reserves the right to alter the implementation of this Plan to accomplish this objective.

Interest rates projected are based on current market conditions. Municipal interest rates are subject to constantly changing market conditions. In addition, other factors such as the loss of tax-exempt status of municipal bonds or broadening the purpose of future tax exempt bonds would affect market conditions. Actual interest expense will be determined once the methods of financing have been approved and securities issued.

The estimated method of financing may be subject to change during the project period. Consequently, the method identified may, as circumstances warrant, be redefined and the dollar amount adjusted, up or down, without formal modification of this Plan during the course of project implementation.

a. Estimated Timing of Project and Financing Costs

Funds are expected to be expended according to Table C above.

b. Estimated Method of Financing Project Costs

Sale of General Obligation Bonds: Estimated at \$17.2 million (par amount of bonds)

The funding source for payment of financing costs will be from tax increment revenues

pursuant to Section 66.1105(6)(c), or from other funds ordinarily used for payment of borrowing obligations. It is the City's intent to maximize the use of TIF funds for the cost of City participation in this project. Bonding will not occur in a single issuance. It is anticipated that bonding will occur following Council resolution to fund certain improvements associated with future property tax-generating and economically beneficial development.

Economic Feasibility Study

The Economic Feasibility Study for this District, prepared by the Department of City Development and titled *N. 35th St. and W. Capitol Dr. TID Economic Feasibility Report*, dated July 2009, is on file in the Office of the Redevelopment Authority of the City of Milwaukee, 809 North Broadway, Milwaukee, Wisconsin, and in the Office of the City Clerk of the City of Milwaukee, 200 West Wells Street, Room 205, Milwaukee Wisconsin, as attached to Common Council Resolution File Number _____. The study is incorporated herein by reference. The study establishes the dollar value of project costs which, based on certain general assumptions and a reasonable margin of safety, can be financed with the revenues projected to be generated by the proposed District.

In the Economic Feasibility Study, incremental tax revenues are analyzed under the assumption of the redevelopment project currently planned within the District. Based upon the anticipated tax incremental revenue to be generated by these projects, the District is financially feasible and may be retired in 2035. Should incremental revenues be generated in excess of those currently anticipated, they will be used to offset the public costs of Plan implementation and retire the TID in a shorter timeframe. See **Exhibit 5** in the appendix for cash flow and debt service analysis.

Map Showing Existing Uses and Conditions

Please refer to **Exhibit 3**, "Properties in Need of Rehabilitation and Conservation and Vacant Properties," in the Appendix which follows.

Map Showing Proposed Improvements and Uses

Please refer to **Exhibit 4**, "Proposed Improvements and Uses," in the Appendix which follows.

Proposed Change of Zoning Ordinances, Master Plan, Building Codes and City Ordinances

Please refer to **Exhibit 6**, "Existing Zoning," in the appendix. The District boundary is generally coterminous with the N. 35th St. and W. Capitol Dr. Redevelopment Project Area. The proposed TID Project Plan is largely consistent with the existing zoning in the area, and the existing Century City Redevelopment Plan (adopted by the City of Milwaukee June 2005), map, building codes, and other city ordinance will not require amendments to their provisions. There are no proposed changes to the building codes or City ordinances, other than potential changes to the zoning ordinance for private development that may occur.

List of Estimated Non-Project Costs

The District's assistance is a small portion of the estimated total cost of the project. However, as detailed design of the public improvements by the City proceeds, some additional costs may be identified and may be eligible for reimbursement through the District.

The incremental assessed value of properties in the TID, including new construction by private parties and inflationary growth in existing property values, is estimated as \$98.9 million as of the final year of the District (2035). See *N. 35th St. and W. Capitol Dr. Economic Feasibility Report*, dated July 2009 for details of development assumptions.

Proposed Method for Relocation

Should acquisition occur which results in displacement, the Redevelopment Authority will make relocation payments to, or with respect to persons (including families, business concerns, and others) being displaced from the project, in accordance with a Relocation Plan prepared pursuant to the applicable provisions of Wisconsin Statute Sections 66.1333 and 32.05 and the Federal Uniform Relocation Act and subsequently approved by the Wisconsin Department of Commerce. The costs of such activities will be eligible for reimbursement through tax increment revenues should such revenues be generated during the statutory life of the District.

Statement Indicating How District Creation Promotes Orderly City Development

TID No. XX contributes to the orderly development of the City by providing the opportunity for continued growth in tax base and improved aesthetics in the City. TID No. XX will provide the City with additional development located in and adjacent to this near north side neighborhood. TID No. XX is largely consistent with the Century City Redevelopment Plan adopted for a large portion of the proposed TID area by the City of Milwaukee in June 2005.

Opinion of the City Attorney

Please refer to the letter of the City Attorney, included as Attachment 1 to this plan.

Note: These projections are based on estimates, assumptions, and other information developed from research of the market, knowledge of the industry, and meetings during which we obtained certain information. Some assumptions inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by our analysis will necessarily vary from those shown here and the variations may be material.
