Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

We have two standard doors in the back of the house, and one "french door" in the back of the house. One of the standard doors does not have any screen or storm door at all. The other standard door is wooden and in very bad shape. There are french doors from the entry of the home leading to the back yard. The french doors have additional "storm" french doors, and those exterior french doors are wooden and in very bad shape.

We have found a local company that makes ornamental security doors. A brochure and quote is attached. We would like to have these black metal storm and security doors hand made, to fit the two standard and one french exterior storm doors for the home. We would like the design of these exterior storm doors to be "paned," to match the window panes of the existing french doors and the existing windows of the home, so the look is similar.
