Linda,

The intent is clarification. I need a specific list of items that are solid that I need to provide.

I don't care who provides it I just want to know that the letter that I have received and its contents will be the expectation for this project so that in October there are no issues or additional drawings or requirements for approval.

I have been running into this issue on regular basis at the City during plan review where there always seems to be one more item or issue to resolve or address.

Respectfully,

Keith Schultz
