

April 3, 2007

To the Honorable, the Common Council

Dear Council Members:

The City of Milwaukee is planning to relay an existing 72-inch diameter combined sewer in North Hubbard Street between East Lloyd Street and East Garfield Avenue in the 6th Aldermanic District. The Milwaukee Metropolitan Sewerage District (MMSD) is planning to reconstruct an intercepting structure that the 72-inch diameter City sewer connects to on the same block. An Intergovernmental Cooperation Agreement was proposed to add the MMSD work to the City contract and the costs associated with the construction of the intercepting structure will be reimbursed to the City by MMSD. We have prepared the attached resolution directing the Commissioner of Public Works to execute an Intergovernmental Cooperation Agreement with MMSD allowing the City to add the MMSD intercepting structure work to the City's contract.

We recommend adoption of the attached resolution.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer
