To who this may concern,

I am in full support of the proposal for the Riverwest Housing Development , Trinitas Ventures. I am a new business in the Riverwest area however have been in business in the East side , Downtown areas for the past 19 years. I have always wanted to open a location in the Riverwest area where many of my young staff members live and I feel that now is the time to commit to this vital area of our city.

This project sounds like the type of move our city should support.

Sincerely,  
Tom Miller
