RE: Veteran's Outreach of Wisconsin / Veteran's Village

Honorable Council Members;

It is with great pride we are able to submit this correspondence to you regarding the work of the Veteran's Outreach / Veteran's Village project here in our neighborhood in Racine, WI.

Working with not only the coordinators and staff of the program, but developing relationships with our veteran service members who utilize the services and resources of the Veteran's Village has benefited countless people. The programs available and the community outpouring of support has really driven the success of the program. Utilizing resources and building relationships has developed a safer community and a real point of pride, a rallying point if you will for those who have served our Country and made significant sacrifice who now need the community and citizen's they served when they are in need.

Mr. Gustin and his team have developed and really put together something special with Veteran's Outreach and Vet's Village, the benefits to our veteran's and our communities by ensuring a safe, structured community to meet their needs is a resource we cannot put an adequate value to.

Respectfully Submitted,

Jason Luebke/Chad Andersen
