Subject: IMPORTANT

Some people who received this message don't often get email from mknitter@carthage.edu. [Learn why this is important](#)

Hello,

I am emailing because I do not want as well as others don't want the proposed data center. It is unfair for the people around to pay more for electricity when they are the ones using it, they should pay it not increase our prices. Everything is already extremely high in prices and can not afford to have higher utilities either.

That's not even the main reason on why this should not be built, it will affect the environment and create even more pollution. I go to carthage college and already have a data center being built in kenosha, I don't want one at my home too.

Please do not let this happen, no one in milwaukee wants this besides the people who can profit off of it. I am 22 and don't want to grow up in a place filled with data centers, this is not right.

NO TO DATA CENTER.

I appreciate your time to read this, I really hope that you see how crucial it is to not have this happen.

Have a good day,
Madison Knitter
